[Inquiry](#)

ePerformance Overview

ePerformance is a self-service evaluation application for managers, employees, and human resources (HR) administrators. ePerformance can be used as a tool for planning, collaboration, communication, assessment, and monitoring evaluations for two purposes: performance and development.

Performance evaluations typically assess and plan employee performance to meet current job requirements and administer salary treatments; while development evaluations are used to assess and plan employee development needs either because of gaps in skill set that is required for a current job or to meet future requirements.

ePerformance supports the entire planning and evaluation process, from planning and aligning employee performance or development goals with enterprise objectives, through assessing and rewarding employee performance results within the right behaviors.

ePerformance provides the flexibility to establish evaluations for different purposes by setting up document templates that define evaluation processes. With this module, the following can be accomplished:

- Generate evaluations.
- Establish evaluation criteria.
- Manage multiple participants.
- Enter evaluation data, including notes, rating, weights, and comments.

- Consolidated feedback from multiple sources into the managers evaluation.
- Submit the manager evaluation for review and approval.

ePerformance Business Processes

The diagram below illustrates an example of the flow of ePerformance business processes - assuming that the document template implements the established criteria, multi-participant, review, and approval processes.

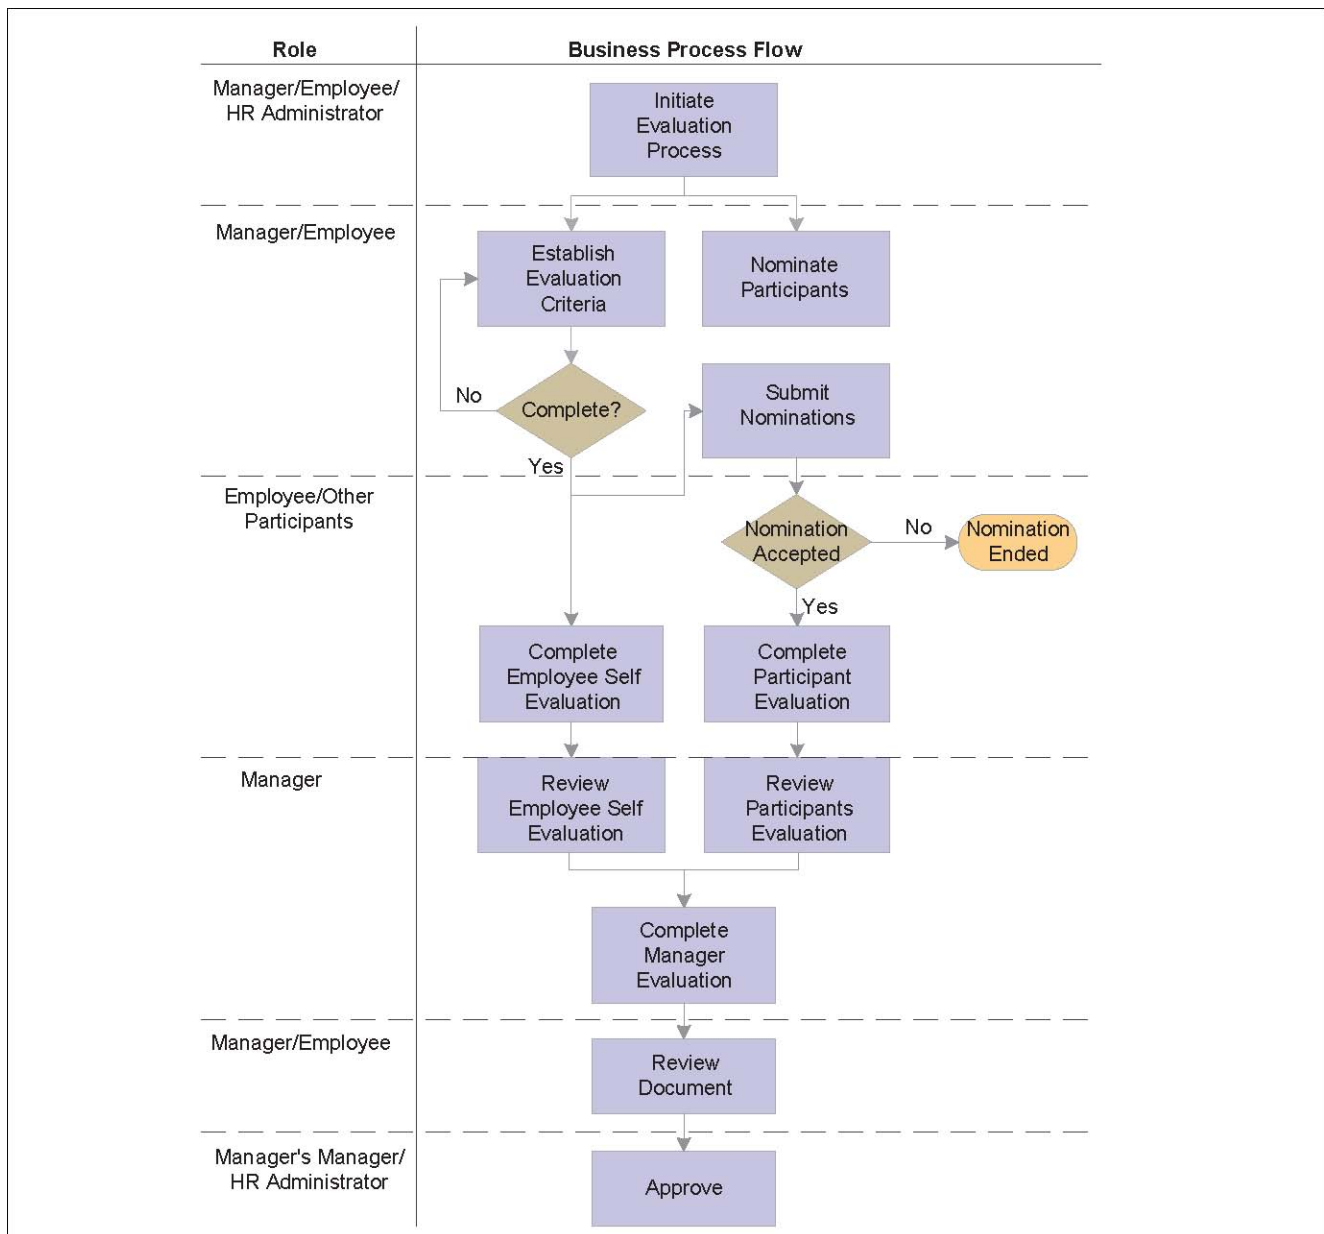

Figure 1. ePerformance Business Process Flow

The ePerformance business process includes the following steps:

1. The manager, employee, or HR administrator initiates the process by creating documents.

Employees can only create documents for themselves; managers can create documents for employees or groups that report to them; HR Administrators can create documents for groups of employees.

2. The employee or manager modifies the document's evaluation criteria and agree on the criteria that are established. This is an optional step.

Criteria modifications include: adding free-form or predefined criteria, modifying the text of document criteria, or removing criteria. For more information, refer to the topics [Add Your Own](#) and [Add Pre-Defined Item](#).

3. The employee or manager nominates participants to provide additional feedback. This is an optional step. For more information, refer to the topics [To Complete Participant Section](#) and [To Complete Nominated Participants Section](#).

4. After nominations are complete, and the evaluation criteria are finalized, nominations are submitted to nominees by either the employee or manager. This step is optional.

When a nominee accepts a nominations, a participant evaluation is created for them.

5. Employees, managers, and (optionally) other participants complete their respective evaluations.

This step consists of rating evaluation items and entering documents.

When a Performance document is initially created, it is a Plan. After adding all the performance criteria, it becomes the Appraisal.

6. The manager views average ratings and consolidates feedback into their evaluation.

During this step, the manager can optionally make use of several tools: notes that they entered pertaining to the evaluation; comments from other evaluators pertain to the evaluation; developments tips that are based upon competencies and sub-competencies; results writer statements that are based on competencies and sub-competencies; average consolidated ratings from other evaluators pertaining to the evaluation; and a language checker that checks language for objectionable terms.

Note: Depending on the review and approval process that is defined in the document template, the final two steps might occur in reverse order.

This section contains the following topics:

[Administrative Processes](#)

[Monitoring Evaluations](#)

Administrative Processes

These administrative processes occur on an as-needed basis and are outside of the evaluation processes:

- Transfer evaluations. For more information refer to [Transferring Documents](#).
- Change evaluation status. For more information refer to [Resetting Document Status](#).
- Cancel evaluations. For more information refer to [Cancelling Documents](#).
- Delete evaluations. For more information refer to [Deleting Documents](#).
- Enter preliminary ratings. For more information refer to [Preliminary Ratings](#).
- View evaluation contents. For more information refer to [Viewing Documents](#).

Monitoring Evaluations

HR Administrators can monitor the status of evaluations and view a summary of the results with various tools, including the following:

- Missing Documents report. For more information refer to [Missing Documents](#).
- Late Documents report. For more information refer to [Late Documents](#).
- Performance Summary report. For more information refer to [Performance Summary](#).
- Status Summary chart.
- Rating Distribution Summary chart.

For more information on viewing documents, refer to [Inquiry](#).

Setting Up ePerformance

This section provides an overview of system settings in ePerformance and discusses how to define system settings.

System settings control certain processing options. These settings can be modified to meet the users needs:

- Whether users can generate documents in languages other than the base language.
- Debug settings.
- Starting number for document ID generation.
- Fields that appear on the page from which users select documents.
- The email notifications that the system generates.

This section contains the following topics:

[Entering/Modifying System Settings](#)

[Working With Manager Profiles](#)

[Working With Approvals And Reviews](#)

[Modifying Self-Service Pages And Email Notifications](#)

Entering/Modifying System Settings

To enter/modify System Settings:

1. Select the **Setup HRMS** menu group.

2. Select the **Install** menu.
3. Select the **Product And Country Specific** menu item.
4. Select the **ePerformance** component. The General Settings tab page (**Figure 2**) is displayed.

The screenshot shows the 'General Settings' tab page. It includes a 'Last Document ID' field set to 572, a 'Debug Options' section with a checkbox for 'Debug Rating Calculations', a 'Configure e-Mail Notifications' section with 18 checked items, and a 'Configure Document Selection Page - Displayed Fields' section with 6 checked items. 'Save' and 'Notify' buttons are at the bottom.

Figure 2. General Settings tab page

5. Complete the fields as follows:

Last Document ID

Enter the number from which the system begins generating document IDs. The system automatically generates the document ID by adding 1 to the Last Document ID.

Allow Language Override

Select this box to enable document generation if it is a language other than the user's preferred language. If this check box is clear, the system generates all documents in the user's preferred language.

The base language is defined by using the Manage Install Languages page in **EmpowHR**.

Debug Rating Calculations	<p>Select this box to have the system generate a debug/trace log every time it calculates the ratings in an evaluation. HR ePerformance administrators use the Debug/Trace Results page to review the results of each calculation performed for an evaluation.</p> <p>This helps track down any unexpected results when templates are built and test configuration.</p> <p>Note: Producing the debug/trace log can have a significant impact on system performance. Select this option only if testing is necessary for the ePerformance configuration or debugging a suspect calculation problem.</p>
Configure e-Mail Notifications	<p>Select the check box next to each event type for the system to automatically generate and send notices.</p>
Configure Document Selection Page - Display Fields/ Begin Date	<p>This field, when checked, appears in the document list when creating documents. For more information, refer to Create/Edit Performance Documents.</p>
Configure Document Selection Page - Display Fields/Manger Name	<p>This field, when checked appears, in the document list when creating documents. For more information, refer to Create/Edit Performance Documents.</p>
Configure Document Selection Page - Display Fields/ End Date	<p>This field, when checked, appears in the document list when creating documents. For more information, refer to Create/Edit Performance Documents.</p>
Configure Document Selection Page - Display Fields/Job Title	<p>This field, when checked, appears in the document list when creating documents. For more information, refer to Create/Edit Performance Documents.</p>
Configure Document Selection Page - Display Fields/Document Status	<p>This field, when checked, appears in the document list when creating documents. For more information, refer to Create/Edit Performance Documents.</p>

Working With Manage Profiles

This section provides overviews on the following topics:

[Using Rating Models](#)

[Using The Content Catalog](#)

[Using Profile Types](#)

Using Rating Models

ePerformance uses rating models to rate an employee's performance or level of proficiency. Rating models define the qualitative values, such as A, B, and C, or 1, 2, and 3, that the system uses to rate or score an employee's performance.

Rating models are assigned to the sections that make up performance or development documents. Managers, employees, and peers can then select an appropriate rating that best reflects the employee's performance in that area.

Ratings can have expanded descriptions that can be used to further describe the behavior one exhibits when performing at a specific proficiency level. These expanded descriptions display on the performance or development document.

Using The Content Catalog

ePerformance uses content types and content items defined in the content catalog to identify the items by which employees are measured. Content types are used as categories for grouping similar content items. Content items are the specific things to be measured.

Content types are associated with the sections that form the structure of a document template and performance or development document. ePerformance uses content types to define the category of content items that can be added to document templates and performance documents. The following are some of the content types and typically used by ePerformance:

- Requirements
- Major Duties
- Expectations
- Rating Model

Once content types are defined, they can begin to link content items to content types. The following table is an example of how content types and items in the Content Catalog for ePerformance might be set up:

Content Type	Content Items
Major Area Of Responsibility (MAR)	Provides Employee Relations Advisory Service (MAR4)
Performance Requirements	How the employee provides Employee Relations Advisory Service.
Expectation	Advises supervisors and managers at all levels on procedures relative to adverse actions, separations, and disqualifications.

Using Profile Types

A profile type is a collection of content items that describe the qualitative attributes of a person. If a profile type is used to describe a person, it is called a person profile.

ePerformance can use profiles in three ways:

1. To download content items from a non-person profile into a document template.
2. To download content items from a nonperson profile into a performance or development document.
3. To update or create an employee's person profile.

Working With Approvals And Reviews

ePerformance uses the Approval (PTAF_TXN) component to define its approval processes. There are five approvals process, three of which use the new approval framework. The three are as follows:

Approval Process	Definition
ManagerOnly	This is a one-step approval process that route the transaction to an approval manager.
ManagerToAdmin	This is a two-step approval process that routes the transaction to an approving manager and then to the ePerformance human resources administrator.
AdminOnly	<p>This is a one-step approval process that routes the transaction to the ePerformance human resources administrator.</p> <p>The approval process definition is linked to a document type using the Document type page.</p> <p>In addition to assigning the approval process definition to a document type, also define when the employee review is to occur within the performance process. The choices are as follows:</p> <ul style="list-style-type: none"> ■ Approval. Before EE (Employee Evaluation) Review Held - The system follows one of the approval processes and the document is approved before the manager discusses with the employee. ■ Approval. After EE Review Held - The system follows one of the approval processes and the document is approved after the manager discusses it with the employee. ■ Approval. No EE Review Held - The system follows one of the approval processes, but the manager does not review the document with the employee. ■ No Approval. EE Review Held - The system does not follow an approval process, but the manager must review the document with the employee. ■ No Approval. No EE Review Held - The system does not follow an approval process and the manager does not review the document with the employee.

Modifying Self-Service Pages And Email Notifications

ePerformance provides standard text that appears on the self-service pages and automatically generates email notifications. The text catalog stores these text entries. The text catalog entries can be modified as needed or create new ones to meet business needs.

To ensure email and workflow notifications are working properly complete the following steps:

1. Activate email using the Worklist System Defaults page.
2. Define the method used to notify the originator using the System Workflow Rules page.
3. Define user notification preferences.
4. Define user's email addresses on the Email Address page.
5. Select email user as a routing preference on the User Profile - Workflow page.

This section discusses the following topics:

[ePerformance Text Catalog Settings](#)

[Notifications](#)

ePerformance Text Catalog Settings

ePerformance makes use of the text catalog for storing text that appears on self-service pages, including field labels, button names, links, page instructions, warnings as well as the text subject lines of automated email notifications. Modify the text that appears on a page or in an email message by editing text in the Text Catalog feature.

The text catalog is partitioned by the applications that uses it, and each partition can store and access its data differently. To access the text catalog items that belong to ePerformance, enter HEP as the object owner identifier on the Maintain Text Catalog search page.

These are the unique settings that apply to ePerformance:

[Sub ID](#)

[Text Catalog Keys](#)

[Text Substitution](#)

Sub ID

ePerformance partitions its text catalog entries by performance and development. To retrieve text catalog entries for development documents, complete the following steps:

1. Enter **D** in the Sub ID Field. To retrieve text catalog entries for performance documents, leave the field blank.
2. Leave the Sub ID field blank.

Text Catalog Keys

ePerformance designates these four keys for storing and retrieving entries:

Key	Description
Section Type	Select the section type to which the text pertains, from the list of section types that are defined on the Section Definition page.
Author Type	Select the evaluator role of the evaluation on which the text appears, from the list of role types that were defined on the Roles Types page.
User Role	Select the system role to which the text pertains, from the list of predefined system roles. This key is used to select text depending on the user's system privileges; for example, update or approve.
Document Status	Select the status to which the text pertains: Acknowledged, Available For Review, Cancelled, Completed, In Progress, Not Started, or Review Held.

When the system retrieves text from the catalog, the section type key takes precedence over author type, author type takes precedence over user role, and user role takes precedence over document status.

Note: An empty key functions as a wildcard. Entries with wildcard keys pertain to all possible values for the key.

Text Substitution

Supply the text values for the **tokens** in an **EmpowHR** function call at runtime. The values are replaced by parameters in the People Code when the text is rendered on evaluations.

To use this feature, the user must know People Code. If the user wants to update the delivered text IDs such that the substitution tokens take on a different meaning or are re-sequenced. Make corresponding changes to the **EmpowHR** code that calls the Text Catalog feature retrieval functions, since this copies supplier values to use in place of the tokens.

These are the tokens and the substitution text for each token that are delivered by ePerformance. Insert up to five substitution tokens from the following list:

Token	Substitute Text
%1	The document type from the Document Type table (EP_REVW_TYP_TABL).
%2	The employee named formatted as first name, last name.
%3	The employee ID.
%4	The period begin date for the performance period.
%5	The period end date for the performance period
%6	The due date of the evaluation.
%7	The component link that transfers the user directly into the applicable evaluation.
%8	The list of employee for whom an evaluation was successfully created during the background run.
%9	The list of employees for whom evaluations were not created.
%10	The Form-Create-Msg, which is one of two alternate messages that appear depending on the type of process that is run.

Notifications

The table below lists the delivered text entries that ePerformance includes in the system-generated email notifications and specifies them and to whom notices are sent. Most text entries have two versions, one with the suffix **_SBJ** for use in email subject lines and a corresponding entry with the suffix **_BDY** for use in the body of email messages. When a notification is triggered by a status change, or an action request on an evaluation, the body text that is generated contains a link to the evaluation(s). This section is configurable to fit the business needs of the user.

Text Catalog	Recipient	Condition For Creating
ADHOC_BASE_SBJ ADHOC_BASE_BDY	Manager or Employee	An adhoc message is sent from the criteria document.
ADHOC_MAIN_SBJ ADHOC_MAIN_BDY	Manager or Employee	An adhoc message is sent from an evaluation.

Text Catalog	Recipient	Condition For Creating
ADHOC_NOM_SBJ ADHOC_NOM_BDY	Multi-participant Evaluation Candidate	An adhoc message is sent from the Nominate Participants page for an evaluation.
BASE-COMPLETE_SBJ BASE-COMPLETE_BDY	Manager or Employee	An establish criteria document is marked as completed.
BASE-CREATE_SBJ BASE-CREATE_BDY	Manager or Employee	An establish criteria document is created by either the manager, employee or ePerformance HR Administrator.
BAS-REOPEN_SBJ BASE-REOPEN_BDY	Manager or Employee	An establish criteria document is reopened by either the manager or employee.
CHG-DUEDATE_SBJ CHG-DUEDATE_BDY	Manager, Employee or Multi-Participant Reviewer	A manager or ePerformance HR administrator changes the due date of an evaluation.
CHG-STATUS_SBJ CHG-STATUS_BDY	Manager, Employee or Multi-Participant Reviewer	An ePerformance HR administrator or manager resets the status of the evaluation to In Progress. This can happen if an evaluation is prematurely advances to the next stage of the process.
CREATE-MGRDOC-SBJ CREATE-MGRDOC-BDY	Manager	An ePerformance HR administrator has generated documents using the batch process.
CREATE-ROLEDOC-SBJ CREATE-ROLEDOC-BDY	Employee	An ePerformance HR administrator has generated documents using the batch process.
DOC-CANCEL_SBJ DOC-CANCEL_BDY	Manager and Employee	An ePerformance HR administrator or manager cancels the evaluation.
EE-ACKNOWLEDGE_SBJ EE-ACKNOWLEDGE_BDY	Manager	An employee acknowledges that they have reviewed the manager evaluation.
EMPDOC_COMPLT_SBJ EMPDOC_COMPLT_BDY	Manager	An employee marks the employee evaluation as completed.
EVAL_CANCEL_SBJ EVAL_CANCEL_BDY	Manager, Employee or Multi-Participant Reviewer	An ePerformance HR administrator, manager or employee cancels an evaluation.
MGRDOC_COMPLT_SBJ MGRDOC_COMPLT_BDY	Employee	A manager marks the manager evaluation as completed.

Text Catalog	Recipient	Condition For Creating
NOM-ACCEPT_SBJ NOM-ACCEPT_BDY	Manager or Employee	A nominated employee accepts a nomination for a multi-participant evaluation.
NOM-CANCEL_SBJ NOM-CANCEL_BDY	Nominee	A nomination for a multi-participant evaluation is cancelled.
NOM-DECLINE_SBJ NOM-DECLINE_BDY	Manager or Employee	A nominated employee declines a nomination for a multi-participant evaluation.
NOM-SUBMIT_SBJ NOM-SUBMIT_BDY	Participants	Nominations to participate in multi-participant evaluations are sent to nominees.
OTHDOC-COMPLT_SBJ OTHDOC-COMPLT_BDY	Manager and/or Employee	A participant in a multi-participant evaluation completes their evaluation.
RQST-ACK_SBJ RQST-ACK_BDY	Employee	A manager marks an evaluation as Review Held . This message is sent to the employee requesting they formally acknowledge the evaluation.
RQST-REVIEW_SBJ RQST--REVIEW_BDY	Employee	A manager changes the status of a manager evaluation to Available For Review .
TRANSFER-MGR_SBJ TRANSFER-MGR_BDY	New Manager	A manager or ePerformance HR transfers an evaluation to a new manager.

These notification messages are used in email body text only.

Text Catalog	Recipient	Condition For Creating
MGR-FAIL-LIST_BDY	Manager	An HR administrator creates manager and employee document, but some employee documents are not created. This message lists the employees for whom document were not created.
DO-NOT-RESPOND_BDY	Manager and Employee	This is used in all notices.

Setting Up Document Templates

Document templates store information that is used to generate specific document instances for use by participants in the evaluation process. Options on the document template define the roles that participate in the review process and the abilities of each role, the steps in the review process, and the items that are evaluated.

The following diagram (**Figure 3**) shows the relationship between the core ePerformance tables, document templates, and generated performance documents.

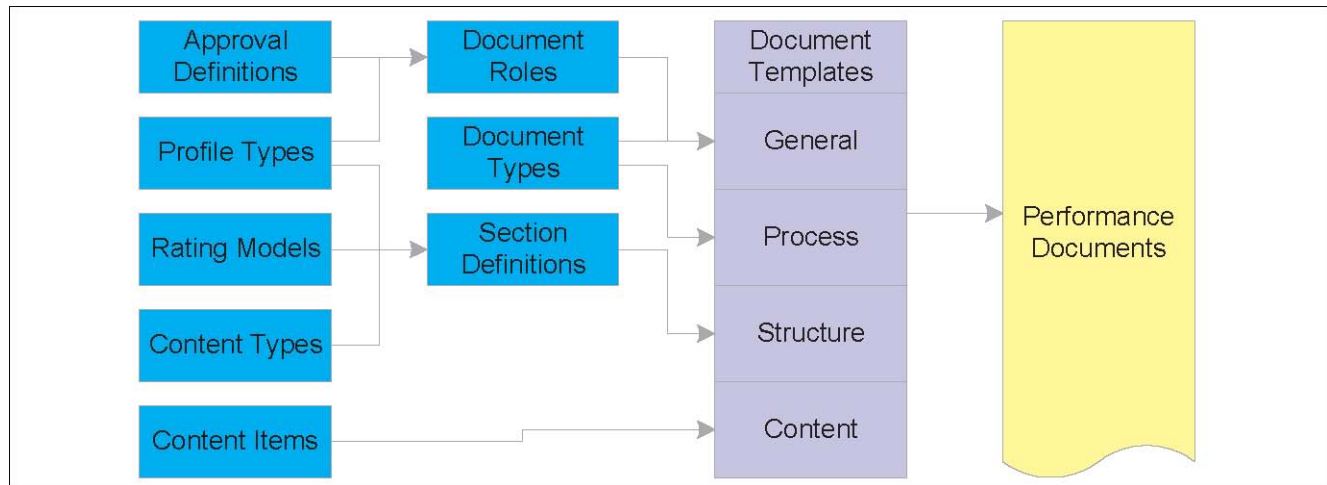

Figure 3. Relationship Between ePerformance Tables

The decisions that are made and the options selected when the templates are defined influence how the evaluation process is conducted in an organization. Organizations often define a high-level template and then successfully clone and modify this template for the appropriate level of the organization. For example, an organization might want a set of expectations and requirements for all employees. Each business unit clones this template with the common expectations and requirement and modifies it to add expectations and requirements that apply only to the business unit.

Before defining templates, consider the following:

- Which features are appropriate for the types of documents that are used in the organization. For example, some organizations use documents to enhance communication between managers and employees, and do not assign ratings; others assign and sign overall rating; and still others rate each individual items (such as major responsibilities, requirements, or expectations) that is contained in the document.
- Ease of use and reuse when the document templates are designed. Limiting the number of templates that are created for each document type makes it easier to select the correct template when performance documents are generated and simplifies template maintenance.
- Making the basic content in a template as generic as possible so that templates are flexible enough to meet the needs of large groups of employees. Job Profiles can be used to include job-specific competencies and responsibilities for all employees in a particular job, job family, position, or salary grade. By doing so, each employee's annual performance document has the same general appearance and instructions, but includes the competencies and responsibilities that are relevant to the particular job.

This section provides an overview of document templates and contains the following topics:

[Defining/Understanding Document Types](#)

[Defining Roles](#)

[Defining Sections](#)

[Creating Document Templates](#)

Defining Document Types

To define document types, use the Document Type (EP_REVIEW_TYPE_TBL) component.

Before document types are created and are planning to use profile types as the content source of performance and development documents, define profiles in the Manage Profile business process.

This section provides an overview of document types and discusses how to set up document types.

Document types identify the types of documents that are valid for an organization, such as Annual, Semi-Annual, Quarterly, Project, and Performance Improvement Plan. They are used to create document templates and provide default values for many fields on the template.

Document types also define whether:

- The document is to be used as the official review for integration with Salary Planning.
- Employee, manager, or both can generate documents.
- The document can be cloned.
- The user or the profile type identifies the document template.
- An approval process is used during the review process.

To access the Document Types page:

1. Select the **Set Up HRMS** menu.
2. Select the **Product Related** menu group.
3. Select the **ePerformance** menu item.
4. Select the **Document Structure** menu item.
5. Select the **Document Type** component. The Find An Existing Value tab - Document Types page (**Figure 4**) is displayed.

Figure 6. Document Types page

10. Complete the fields as follows:

Effective Date	This field is the date the document type detail is effective. Enter/modify the effective date if applicable or select a date from the calendar icon
*Status	This field is the status of the document detail. Select the status from the drop-down list. The valid values are Active and Inactive .
*Description	This field is the description of the document type detail. Enter the document type detail description.
Short Description	Enter the short description for the description of the document type detail.
Official Review	Select this box to designate that documents generated for this document type are used by the Salary Planning by Group process to retrieve rating and review points and, by the Salary Increase Matrix page to retrieve ratings.
*Document Usage	This field describes the type of document usage. The valid values are as follows:

Document Usage Valid Value	Definition
Performance	Indicates the system uses this document type for performance planning or evaluation. Performance documents appear on the manager or employee self-service pages under the My Performance Documents menu or on the Administrator pages under Workforce Development>Performance Management>Performance Documents.
Development	Indicates the system uses this document type for employee development (Individual Development Plan, IDP). Development documents appear in the the My Development Document menu on the self-service pages or under the Development Documents menu on the Administrator pages.

Initiate Process/Employee	Select this box to indicate if the role or roles can initiate the evaluation process. More than one box may be selected. The value is in this field, determines if the employee can select the document type when initiating the evaluation process.
----------------------------------	--

Initiate Process/Manager	Select this box to indicate if the role or roles can initiate the evaluation process. More than one box may be selected. The value that is in this field determines if the manager can select the document type when initiating the evaluation process.
Initiate Process/Employee Can Select Manager	<p>This check box appears only if the Employee check box is selected for the Initiate Process field.</p> <p>Select this check box to enable an employee to select the person who acts in the manager role during the evaluation process.</p>
Clone Existing Document/Employee	Select employee check box to indicate which role or roles can clone an existing comment to create a new document. More than one box may be selected. The employee check box is only available if the corresponding check box is selected in the Initiate Process field.
Clone Existing Document/Manager	Select manager check box to indicate which role or roles can clone an existing comment to create a new document. More than one box may be selected. The manger check box is only available if the corresponding check box is selected in the Initiate Process field.
Template Source/User Specified	Select this option to identify where the system obtains the document template to be used to generate documents. This field indicates that the user initiating the document creation process must identify the template.
Template Source/Profile Management	Select this option to identify where the system obtains the document template that is to be used to generate documents. This field indicates that the template comes from the Manage Profile business process. The system identifies the template by using the information entered in the Profile Type and the employee's job information.
Profile Type	This field is available if the Profile Manager option in the Template Source field is selected. Select the profile type used by the Create Documents process to identify the document template. The list contains only nonperson profile types that have an ePerformance template included as a related object in the Profile Association Options group box on the Profile Types Associations page. The valid values are based on the default templates created.

Default Template

This field is available if the Profile Management option in the Template Source field is selected.

Select the template used to generate the documents for this document type when the system cannot identify a template for the give profile type.

Note: Because document types are defined before templates, return to the Document type page after the default template is defined and enter the value for this field.

Definition ID

Select the approval definition for documents of this type. The definition ID determines the chain of approvals a document must go through, if any, when a manager clicks the Submit button on a document. The value that is selected here becomes the default value for the Definition ID field on the Document Types page (**Figure 6**) for templates of the document type. To enter/change select data by clicking the search icon.

Definition ID Values	Definition
ManagerOnly	This is a one-step approval process that routes the transaction to an approving manager.
ManagerToAdmin	This is a two-step approval process that routes the transaction to an approving manager and then to the ePerformance HR Administrator.
AdminOnly	This is a one-step approval process that routes the transaction to the ePerformance HR Administrator.

11. Click **Save**. At this point, the following options are available:

Step	Description
Click Notify	To send an email to a person in the workflow.
Click Add	To add another document type.
Click Update/Display	To update the entry.
Click Include History	To include the information in history.
Click Correct History	To correct history.

Defining Roles

To define roles, use the Document Roles (EP_ROLE_TBL) component.

This section provides an overview and discusses how to set up roles that provides for multi-participant feedback.

ePerformance enables the user to include feedback from participants other than the employee and employee's manager, for example, peers or customers. To implement multi-participant feedback processes, first define the roles that can participate in the process. After the roles are defined, add them to a document template definition that is used in the multi-participant process.

[Setting Up Roles](#)

Setting Up Roles

ePerformance delivers the Manager and Employee roles as system data. Other roles are available and can be configured.

Manager or Employee roles cannot be modified, inactivated, or deleted. They are required.

To access the Document Role page:

1. Select the **Set Up HRMS** menu.
2. Select the **Product Related** menu group.
3. Select the **ePerformance** menu item.
4. Select the **Document Structure** menu item.
5. Select the **Document Roles** component. The Find An Existing Value tab - Roles page(Figure 7) is displayed.

Click Correct History	To correct history.

Defining Sections

To create document sections, use the Section Definition (EP_SECTION_DEFN) component.

Sections are another building block for document templates. They form the structure of a performance or development document. For example, the organization may want its performance evaluations to include:

- Major Duties.
- Performance Requirements.
- Expectations.
- The organization's mission statement.
- The department's initiative for meeting the mission statement.
- The employee's goals.
- The employee's competencies, responsibilities, or learning.
- A section for employee's to add comments.
- A section for manager's and/or reviewer's comments.
- A section for signatures.

Each of these are separate section definitions that can be added to the document template. The following (**Figure 10**) illustrates an example of the relationship between sections, templates, and generated documents.

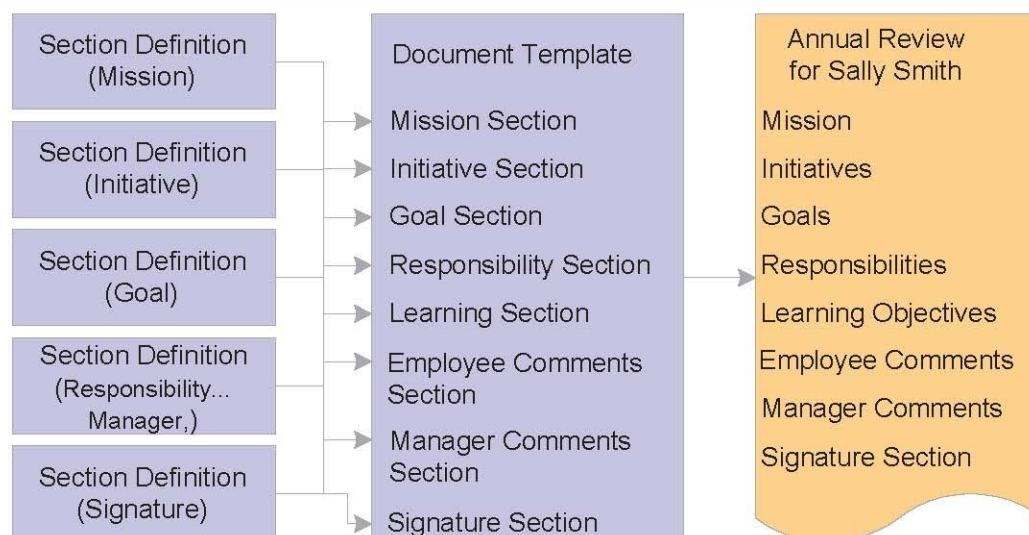

Figure 10. Relationship Between Section, Templates, And Generated Documents

When defining sections, specify the following:

- Whether the section is rated or weighted.
- Which calculation method is used to determine employee ratings.
- Which rating modes are used to rate employees.
- Any special processing for that section.
- What category of content types are associated with the section.
- What information to include in the document.

ePerformance delivers a wide range of section definitions and can be configured to meet business needs. The following are the delivered and configured section definitions:

- Performance Requirements
- Major Duties
- Expectations
- Competency
- Employee (employee comments)
- Goals
- Ini (initiatives)
- Learning
- Manager (manager comments)
- Reviewer (reviewer comments)
- Mission
- Resp (responsibility)
- Sign (signature)
- Summary (overall summary)

Before creating section definitions, complete the following:

- Define rating models.
- Define content types.
- (Optional) Define profile types.

The detailed information is used later to populate the fields on the Template Definition - Structure page (**Figure 18**) for the specified section. The description entered here is used to identify the section the user wants to add on the Template Definition page.

To access the Section Definition page:

1. Select the **Set Up HRMS** menu.
2. Select the **Product Related** menu group.

3. Select the **ePerformance** menu item.
4. Select the **Section Definition** menu item.
5. Select the **Document Structure** menu item.
6. Select the **Section Definition** component. The Find An Existing Value tab - Section Definition page (**Figure 11**) is displayed.

11. Complete the fields as follows:

Section Type	This field is populated with the section type found/entered on the search/add criteria page.
---------------------	--

To complete the Section Definition Detail region of the Section Definition page:

*Effective Date	Enter the effective date of the role or select a date from the calendar icon.
------------------------	---

*Status	This field defaults to Active . To change, select data from the drop-down list. The valid values are Active and Inactive .
----------------	---

*Description	Enter the description of the section.
---------------------	---------------------------------------

To complete the Section region of the Section Definition page:

Rate	<p>This check box is available if Learning, None, or Overall Summary is selected in the Special Processing field.</p> <p>Select this check box to enable a rating assignment for the section, either by a system calculation or manually. A Rating field appears in the section summary of a document.</p>
-------------	--

Calculation Method	<p>This field is available if the Rate check box is selected and the Special Processing field is set to Learning, None, or Overall Section.</p> <p>Select the calculation method used for the section. The valid values are Average, Summation, and Review Band.</p>
---------------------------	---

Preliminary Rating	<p>This check box is available if the Rate check box is selected and the Special Processing field is set to Overall Section.</p> <p>Select this check box to enable a manager to enter a preliminary rating for the performance document.</p>
---------------------------	---

Rating Model	<p>This field is available if the Rate check box is selected and the Special Processing field is set to Learning, Non, or Overall Section.</p> <p>Enter the rating model or select data by clicking the search icon.</p>
---------------------	--

Weight	<p>This check box is available if the Rate check box is selected and the Special Processing field is set to learning or None.</p> <p>Select this check box to enable the section to have a weighting relative to the other sections in the document. A weight Section field appears in the section summary.</p> <p>The user cannot weight sections of performance document when a calculation method of Summation or Review for the Overall Summary section is selected and elect to have the system calculate performance ratings. (Enters calculation instructions through the Template Definition component.)</p>
Minimum Weight	<p>This check box is available if the Weight check box is selected.</p> <p>Enter the minimum weight for the section. This field is used when ratings are calculated to ensure that the section weight cannot fall below a minimum value.</p>
Weight	<p>This check box is available if the Weight check box is selected.</p> <p>Enter the default weight for a section.</p>
Special Processing	<p>This field determines the type of information that is entered in this section and how the system processes the information. Select data from the drop-down list. The valid values are as follows:</p>

Special Processing Valid Values	Definition
Employee Comments	<p>This section is used by employees to enter and edit comments on the manager's performance evaluation when the evaluation status is Available For Review, Review Held, or Acknowledged.</p> <p>This type of special processing allows the employee to enter their comments regarding the manager's assessment of the employee's performance on the Manager Evaluation.</p> <p>When selected, all fields on this page become unavailable.</p>
Learning	<p>This section is used by employee and managers to add or view learning information from Learning Management. Only the Rate and Weight check boxes are available.</p>
Manager Comments	<p>This section is used by managers to enter comments, in response to the employee's comments, on the performance evaluation when the evaluation status is In Progress, Available For Review, Review Held, or Acknowledged.</p> <p>When selected, all fields on this page become unavailable.</p>
None	<p>No special processing options apply, select None. Most likely, the user selects this option when creating a section for a mission statement, initiatives, goals and objectives, competencies, or responsibilities.</p>

Special Processing Valid Values	Definition
Overall Summary	<p>This section contains the overall rating for the document. A document template can include only one section that is set to Overall Summary.</p> <p>When selected, all fields on this page except the Rate Section and Summary fields become unavailable.</p>
Signatures	<p>A predefined signature section appears on the printed version of the evaluation.</p> <p>This section consists of two signature rows: the first for the employee, the second for the manager. Each row includes a signature line and a date. To change the format of the signature lines in this section, modify the Text Catalog feature.</p> <p>When selected, all fields on the page except the Summary field become unavailable.</p> <p>Note: The Text Catalog entry for defining the signature format is APPR_MAIN1_INST2 for evaluations and APPR_BASE_SEC_DESC for Established Criteria document. The section type context key for both equals SIGN</p>

To complete Items region on the Section Definition page:

The fields in this group box are available if the Special Processing field is set to **None**. The fields in this page region determine if the section on the document can contain content items such as mission statements, initiatives, goals or objectives, competencies, responsibilities, or free-form items. A section must contain all items of the same content type. Items are evaluated or tracked depending on the rules specified. Typically, Employee Comments, Manager Comments, Overall Summary and Signatures section do not include content items.

Enable Items

This check box is available if the Special Processing field is set to **None**.

Select this checkbox if the section can contain items. When this check box is selected, the other fields in this page region are enabled.

Prompt Table

This check box is available if the Enable Items check box is selected and applies for only content items.

Select the name of the table that holds the content items that the user wants included in the section. Select data by clicking the search icon.

Free Form

This check box is available if the Enable Items check box is selected.

Select to enable users to add free-form items to this section of a document or template. For example, managers might use this feature to add a list of courses that an employee should take. The system assigns a unique identifier to each free-form item that is added. These items are not stored for reuse.

Content Type

This check box is available if the Enable Items check box is selected.

Select the content type from which content items (job attributes) are pulled when defining the criteria used to evaluate employees' performance on the Template Definition - Content page (**Figure 23**). Valid options are any content types defined in the content catalog in the Manage Profiles business process. Select data from the drop-down list. The valid values are listed below:

This field cannot be a content type that is defined only as a child of another content type.

Content Type Valid Values

Rate	<p>This check box is available if the Enable Items check box is selected.</p> <p>Select this check box to enable a rating assignment for the section, either by a system calculation or manually. The Rating Model field appears on the Template Definition - Content page (Figure 23) and a rating field appears in the section summary on the performance document.</p>
Target Rating	<p>This check box is available if the Rate check box is selected.</p> <p>Select this check box to indicate that content items can have a target proficiency rating assigned on the Template Definition - Content page (Figure 23). The target proficiency rating displays on the performance document for the content items.</p>
Use Section Rating Model	<p>This check box is available if the Enable Items check box is selected and a rating model is entered in the Rating Model field in the Section group box.</p> <p>Select this check box to have the rating model for all items and sub items on the document template default to the section rating model.</p>
Add Items - Establish Criteria	<p>This check box is available if the Enable Items check box is selected.</p> <p>Select this check box to enable a manager, employee, or peer to add items or sub items for the section on the Establish Criteria document.</p> <p>Note: The specific roles and whether they can add items or sub items to their evaluations are defined in the Section Role grid when this section in a document template is included.</p>
Weight	<p>This check box is available if the Rate check box is selected.</p> <p>Select this check box to enable the item in the section to have a weighting relative to the other items in the section. A Weight Section field appears in the section summary.</p> <p>The user cannot weight sections of a performance document when a calculation method of Summation or Review Band for the Overall Summary section is selected and elects to have the system calculate performance rating. (Enter calculation instruction through the Template Definition component.)</p>

Minimum Weight	<p>Select this check box if items can have a minimum weighting. Minimum weights are entered on the Template Definition - Structure page (Figure 18).</p> <p>During the evaluation process, managers can click an update link on the evaluation to edit the minimum weight.</p>
Mandatory	<p>This check box is available if the Enable Items check box is selected.</p> <p>Select this check box if the document author cannot edit or delete items. This applies to all item, regardless of whether they are defined on the template or job profile.</p>
Critical	<p>This check box is available if the Enable Items check box is selected.</p> <p>Select this check box to indicate that times can have a critical indicator.</p>
Description	<p>This check box is available if the Enable Items check box is selected.</p> <p>Select this check box to have the description that is defined for the item appear on the document. For example, if the section pertains to responsibilities and this check box is selected, the document includes the description that is defined on the Content Items - Items Detail page.</p>
Measures	<p>This check box is available if the Enable Items check box is selected and is designed for use by free-form items.</p> <p>Select this check box to display the Measurement field on the Template Definition - Content page (Figure 23).</p> <p>Measurements describe the standards against which performance is compared.</p>
Due Date	<p>This check box is available if the Enable Items check box is selected.</p> <p>Select this check box to have items include a due date on the document. For example, managers might enter a due date by which an employee must become proficient in a certain competency or attain a particular goal. During the evaluation process, managers can update the due date.</p>
Reminder Date	<p>This check box is available if the Enable Items check box is selected.</p> <p>During the evaluation process, managers can click an update link on the evaluation to edit the reminder date.</p>

Supports	<p>This check box is available if the Enable Items check box is selected.</p> <p>Select this check box to enable the association of items in this section with items in a different section of the same review. This field works in conjunction with the Link field.</p>
Link	<p>This check box is available if the Supports check box is selected.</p> <p>This enables the user to indicate that the current section supports another section, similar to cascading objectives. This association displays as informational information on the performance document.</p>
Ownership	<p>This check box is available if the Enable Items check box is selected.</p> <p>Select this check box to have items contain an Owner field that indicates who is responsible for the item: the employee or the manager. The flag is informational only; it does not cause any special processing to occur. During the evaluation process, managers can click the update link on the evaluation to edit the Owner field.</p>
Status	<p>This check box is available if the Enable Items check box is selected.</p> <p>Select this check box to have items in the section of a document include a field that identifies the status of the item. The possible statuses are Complete, In Progress, and N/A (Not Applicable).</p>
Percentage Complete	<p>This check box is available if the Enable Items check box is selected.</p> <p>Select this check box if on a document it can include a field for entry of the percentage complete. Employees and managers can use this field for entry of the percentage complete. Employees and manager can use this field to indicate progress towards certain goals.</p>

To complete Sub-Items region on the Section Definition page:

Fields in this group box are available if the Enable Items check box in the Items group box is selected.

Enable Sub-Items	<p>Select this check box to indicate the section can contain sub-items. Although sub-items are typically sub-competencies, this is not a requirement. For example, the user might create free-form sub items for responsibilities.</p>
-------------------------	--

Prompt Table	Select the name of the table that holds the sub-items that are included in the section. Select data by clicking the search icon.
Free-Form Allowed	<p>This field is available if the Enable Sub-items check box is selected.</p> <p>Select this check box to add free-form (non-coded) sub-items to this section.</p>
Content Type	<p>This field is available if the Enable Sub-items check box is selected.</p> <p>Select the content type from which content items to be selected. The content types available for selection are those that have been set up as a child of the content type selected in the Content Type field of the Items Section. Select data from the drop-down list. The valid values are Competency, and Sub-Competency.</p>
Description	<p>Select this check box to have the description for the sub-item appear on the evaluation.</p> <p>During the evaluation process, managers can click an update link on the evaluation to edit the description for the sub-item.</p>

To complete Profile Management region on the Section Definition page:

This group box is used to identify whether the user wants to download criteria from a nonperson profile.

Initialize From Profile	<p>This field is available only when the Special Processing field is set to None.</p> <p>Select this check box if the user wants the competencies or responsibilities that are associated with a profile type automatically loaded from the profile into the template or document.</p>
Profile Type	<p>This field is available if the Initialize from Profile check box is selected.</p> <p>These profile types are defined in the Manager Profiles business process with a Profile equal to Person.</p> <p>Select the profile type or select data from the drop-down list. The valid values are listed below:</p>

Profile Type Valid Values

This section contains the following topics:

[Ratings And Weighting](#)

[Calculation Methods](#)

[Special Processing](#)

Ratings And Weighting

Some sections may be rated, such as employee responsibilities or competencies. Others section, such as Major Duties (mission statements), would the user probably want to rate. The user may want to weigh the sections that are rated higher than others. Weighting a section or item in the section enables the user to place more or less importance on the section or item.

Calculation Methods

If your organization rates employees performance, the user can have the system calculate the employee's performance rating or manually enter the ratings. ePerformance delivers three different calculation methods. Calculation methods are configurable to meet the business need.

Calculation Method	Description
Average	To use this method, the rating models associated with the section and its items must define numeric ratings that correspond to the rating descriptions. The system uses the numeric ratings to calculate a weighted average if weights exist; otherwise, it calculates a straight average. It then converts this average back to a performance document rating, again using the rating model.
Summation	To use this method, the rating models that are associated with the section and its items must define review points. The rating model for the section must also define point ranges (from points and to points). The system converts this total into the corresponding review rating for the section by using the point range on the rating model. Weights are ignored. Item ratings are not used in the summation method.
Review Band	This method is similar to the Summation method, but is only available for the Overall Summary Section of a document. To use this method, the rating model that is associated with the Overall Summary section must include a performance document band and define review points as well as point ranges (from points and to points). During the calculation process, the system computes the total review points across all sections and converts this total into the equivalent rating on the document band.

Special Processing

Special processing determines a sections use and the fields that are enabled in the section, Item, and Sub-Items group boxes on the Section Definition page. ePerformance provides the following type of special processing.

If Special Processing Is	Then The Section
Employee Comments	Cannot be rated nor weighted. Cannot have items nor sub-items.
Learning	Can be rated and weighted. Cannot have items nor sub-items.
Manager Comments	Cannot be rated nor weighted. Cannot have items nor sub-items.
None	Can be rated and weighted. Can have items nor sub-items.
Overall Summary	Can be rated and weighted. Cannot have items nor sub-items.
Signatures	Cannot be rated nor weighted. Cannot have items nor sub-items.

Creating Document Templates

To create document templates, use the Template Definition (EP_TMPL_DEFN) component.

This section discusses how to:

- Define general template information.
- Define document processes.
- Define document structure.
- Add criteria to sections.
- Loan content from profiles.
- Clone Templates.

Before the document templates are created, complete the following tasks:

- Set up the content catalog.
- Define job profiles. (Optional)
- Set up rating models.
- Define document types.
- Define document roles.
- Define section definitions.

Note: The template cannot be created without a document type, and a template must contain at least one section with a manager role selected.

This section contains the following topics:

[Defining General Template Information](#)

[Cloning Template Definitions](#)

Defining General Template Information

The information that is specified on this page controls the sections that are available on other pages of the component.

Document templates are defined using four tabs. Below are the steps to complete the four tabs.

To set up Template Information:

1. Select the **Set Up HRMS** menu.
2. Select the **Product Related** menu group.
3. Select the **ePerformance** menu item.
4. Select the **Document Structure** menu item.
5. Select the **Template Definition** component. The Find An Existing Value tab - Template Definition page (**Figure 14**) is displayed.

Figure 14. Find An Existing Value tab - Template Definition page

6. Complete the fields as follow:

Document Type Enter the section type.

OR

Document Template ID Enter the document template ID that corresponds to the document type.

Effective Date Enter the effective date for the template definition.

Description Enter the description of the document type.

Note: All fields may be entered to narrow the search.

7. Click **Search**. The General tab - Template Definition page (**Figure 16**) is displayed.

OR

Click **Cancel** to clear the information enter on the page.

OR

Select **Add A New Value** tab. The Add A New Value - Template Definition page (**Figure 15**) is displayed.

Figure 15. Add A New Value tab - Template Definition page

8. Complete the field as follows:

Document Type	Enter the section type.
Document Template ID	Enter the document template ID that corresponds to the document type.
Effective Date	Enter the effective date for the template definition or select a date from the calendar icon.
Section Type	Enter the name for the section.

9. Click **Add**. The General tab Template Definition page (**Figure 16**) is displayed.

The General page defines processing options, Establish Criteria and Nominate Participants, and define what roles can be participants in the performance or development process. The user can also designate that documents using this template are recognized by the system as the official review.

General | Process | Structure | Content

Document Type: KOANNUAL Annual Review
Template ID: KU000001 **Effective Date:** 01/01/1980

***Description:** Average - Appl After Review
***Status:** Active
☒ **Official Review**
☐ **Establish Criteria**
☐ **Nominate Participants**

[General](#) | [Process](#) | [Structure](#) | [Content](#)

Figure 16. General tab - Template Definition page

10. Complete the fields as follows:

Document Type	This field is populated with the information entered on the search or add criteria page.
Template ID	This field is populated with the information entered on the search or add criteria page.
Effective Date	This field is populated with the information entered on the search or add criteria page.
*Description	Enter a description of the document template. This description appears as a selection field when evaluations are created from the template; therefore each template with a document type should have a unique description.
*Status	This field is the status of the document template. Select data from the drop-down list. The valid values are Active and Inactive .

Official Review

Select this check box to designate that the overall rating from the manager's documents generated with this template is to be used to update salary planning information.

If the employee has more than one official document, these processes use the results of the document with the latest period end date. The default value from the Document Type page appears here, but can be changed.

By selecting Official Review, the user indicates that the overall rating from the manager's document generated with this template is used to update salary planning information.

Establish Criteria

Select this box to enable the Establish Criteria step.

When this check box is selected, the Establish Criteria group box appears on the Process tab - Template Definition page (**Figure 17**) and is a step on the Document Detail page. The default value from the Document type page appears here, but can be changed.

By selecting Establish Criteria, the step in the business process is activated. Establish Evaluation Criteria appears as the first step to be completed on the Document Details - Current Performance Documents page (**Figure 60**). The system also creates the Performance Criteria - Draft document, which allows the manager and/or employee to update and possibly add items to the performance critical document.

Nominate Participants

Select this check box to enable the Nominate Participants and Review Participant Feedback group boxes appears on the Process tab - Performance Documents page (**Figure 17**).

By selecting Nominate Participants, the business process, Nominate Participants, Track Nominations, and Review Participant Evaluations is activated and appears as steps on the Document Details page (**Figure 60**). The system also creates documents for each person that accepts their nomination.

To complete the Participation region on the General tab - Template Definition section:

*Role

Select one or more roles that can participate in evaluation that are generated using this document. The valid values are listed below:

The Manager and Employee roles always appear in this list. Additional roles can be added which are defined on the Roles page.

Role Valid Values
Employee
Manager
Other
Peer

Evaluation

Select this check box to define whether an evaluation is created for the role.

The check box for the manager roles is always selected and cannot be altered.

Document Due Days

Enter the number of days that the document is due before or after the period end date.

Documents always pertain to a specific period of time, defined by the period begin and period end dates. These dates are established when the document is created.

The document due date appears on the Employee Performance page that managers can use to monitor pending performance documents.

The due date is also used to generate the Late Reviews report and to run the Create Summary Data process. Managers can use the Change Due Dates page to change the due date of the employee's document. HR administrators can use the same page to modify the due date of the manager's document.

The field next to the due days determines if 60 days is after the period end date or before the period end date. Select data from the drop-down list. The valid values are **Before Period End Date** and **After Period End Date**.

11. Click the **Process** tab. The Process tab - Template Definition page (**Figure 17**) is displayed.

The Process tab - Template Definition page shows the processes that are required for the document based on the choices made on the General tab - Template Definition page (**Figure 16**). Select the actions that each role or roles can perform for each process, and specify whether the ratings that are entered by persons having that role are anonymous.

The information that is specified in the document process determines the functions that employees, managers, and other participants can perform in each step of the review process.

Specify approval rules for the manager's document and overall document processing rules on this page.

The screenshot displays the 'Process' tab of the 'Template Definition' page. At the top, there are tabs for 'General', 'Process', 'Structure', and 'Content'. The 'Process' tab is active. Below the tabs, the following information is displayed:

- Document Type:** KIDANNUAL Annual Review
- Template ID:** KU000001
- Effective Date:** 01/01/1980

The page is divided into several sections:

- Establish Criteria:** Includes checkboxes for 'Updated By: Employee' and 'Manager', a 'Completed By' dropdown, and a 'Due Date' field with a 'Days' dropdown.
- Nominate Participants:** Includes checkboxes for 'Updated By: Employee' and 'Manager', a 'Submitted By' dropdown, checkboxes for 'Tracked By: Employee' and 'Manager', and a 'Due Date' field with a 'Days' dropdown. Below this is a table for 'Role' with columns for 'Minimum Required', 'Maximum Required', 'Anonymity for Employee', and 'Anonymity for Manager'. The 'Peer' role is listed with values 0, 0, and checkboxes for anonymity.
- Review Participant Evaluations:** Includes checkboxes for 'Accessed By: Employee' and 'Manager', and 'Viewed By: Employee' and 'Manager'. Below this is a table for 'Role' with columns for 'Anonymity', 'Anonymity for Employee', and 'Anonymity for Manager'. The 'Peer' role is listed with checkboxes for anonymity.
- Manager Evaluation:** Includes a 'Review Process' dropdown (set to 'Approval After EE Review Held'), a 'Definition ID' field (set to 'AdminOnly'), and checkboxes for 'View Average Rating: Manager' and 'Employee', and a 'Cancel Outstanding Evaluations' checkbox.
- Evaluation Rules:** Includes a 'Rounding Rule' dropdown (set to 'Standard'), a 'Decimal Places' field (set to 0), checkboxes for 'Calculate Ratings' and 'Language Checker', and a 'Map Method' dropdown (set to 'Nearest').

At the bottom of the page, there is a navigation bar with buttons: Save, Return to Search, Previous in List, Next in List, Notify, Refresh, Add, and Correct History. Below the buttons is a breadcrumb trail: General | Process | Structure | Content.

Figure 17. Process tab - Template Definition page

12. Complete the fields as follows:

- Document Type

This field is populated with the information entered on the search or add criteria page.
- Template ID

This field is populated with the information entered on the search or add criteria page.
- Effective Date

This field is populated with the information entered on the search or add criteria page.

To complete the Establish Criteria region on the Process tab - Template Definition page:

This section is used to set up the rules for the Establish Criteria process. It appears only if the Established Criteria check box is selected on the General tab - Template Definition page (Figure 16). The rules defined here determines the information that is displayed on the Document Details - Current Performance Documents page (Figure 60).

- Updated By/Employee

Select this check box to indicate the role that can update the criteria on documents.
- Updated By/Manager

Select this check box to indicate the role that can update the criteria on documents.

Completed By	Select a role from the drop-down list that can complete or finalize the established criteria document. The valid values are Manager and Employee .
Due Date	Enter the number of days before or after the period end date when the establish criteria document is due.
Days	Select days from the drop down list. The valid values are After Period End Date and Before Period End Date .

To complete the Nominate Participants region on the Process tab - Template Definition page

Use this section to set up the rules for the Nominate Participants process. It appears only if the Nominate Participants check box is selected on the General page. The rules defined here determines the information that is displayed on the Document Details - Current Performance Documents page (**Figure 60**).

Updated By/Employee	Select this check box to indicate the role to indicate the roles that can nominate participants for a review.
Updated By/Manager	Select this check box to indicate the role to indicate the roles that can nominate participants for a review.
Submitted By	Select the role that can submit the nominations to nominees. Only select a role that can update participants. Select data from the drop-down list. The valid values are Employee and Manager .
Tracked By/Employee	<p>Select this check box to indicate the roles that can track nominations that are submitted.</p> <p>If this check box is selected, that the Track Nomination step appear in the Document Details - Current Performance Documents page (Figure 60). This enables the user to view the submitted nominations and track whether or not they have been accepted. If the user has access to this step, then they can also cancel the nominations that have not been accepted.</p>

Tracked By/Manager	Select this check box to indicate the roles that can track nominations that are submitted. If this check box is selected, that the Track Nomination step appears in the Document Details - Current Performance Documents page (Figure 60). This enables the user to view the submitted nominations and track whether or not they have been accepted. If the user has access to this step, then the user can also cancel the nominations that have not been accepted.
Due Date	Enter the number of days before or after the period end date when the nominations must be completed. This date appears on the Document Details - Current Performance Documents page (Figure 60).
Days	Select data from the drop-down list. The valid values are After Period End Date and Before Period End Date .

To complete the Amenity region on the Process tab - Template Definition page:

The Role grid contains one entry for each participant role other than the manager and employee who is defined on the General tab - Template Definition page (**Figure 16**).

Role	This field is populated from General tab - Template Definition page (Figure 16).
Mimimum Required	Enter the minimum number of participants of this type that are required to participate in a review. For example, if the review requires at least three peers, the user must nominate at least three peers and they must accept the nominations before the review can proceed.
Maximum Allowed	Enter the maximum number of participants of this type that can participate in a review. For example, if the review maximum for peers is three, the user cannot submit nominations to four peers.
Anonymity For Employee	Select this check box to indicate that the employee is not able to see the names of the participants for this role when tracking nominees.
Anonymity For Manager	Select this check box to indicate that the manager is not able to see the names of the participants for this role when tracking nominees.

To complete the Review Participant Evaluations region on the Process tab - Template Definition page:

This section is used to setup the rules for the Review Participants Evaluations step. It appears only if the Nominated Participant check box is selected on the General tab - Template Definition page (**Figure 16**).

Accessed By/Employee	Select this check box to indicate the roles that can access participant feedback from the Document Details - Current Performance Documents - Current Performance Documents page (Figure 60).
Accessed By/Manager	Select this check box to indicate the roles that can access participant feedback from the Document Details - Current Performance Documents page (Figure 60).
Viewed By/Employee	Select this check box to be able to view completed evaluations from the participants. Only select a role that can be access participant feedback.
Viewed By/Manager	Select this check box to be able to view completed evaluations from the participants. Only select a role that can be access participant feedback.

The Role grid contains one entry for each participant role that is defined on the General tab - Template Definition page (**Figure 16**).

Anonymity For Employee	Select this check box to indicate that the employee is not able to see the names of the participants for this role when tracking nominees.
Anonymity For Manager	Select this check box to indicate that the manager is not able to see the names of the participants for this role when tracking nominees.

To complete the Manager Evaluation region on the Process tab - Template Definition page:

Review Process	This field identifies the process for reviewing a document with the employee, and when this review takes place relative to a formal approval of the document. It also controls when the Submit , Complete , Available For Review and Review Held actions are available to the manager. Select data from the drop down list. The valid values are listed below:
-----------------------	--

Review Process Valid Values	Definition
Approval After Review Held	If the document approval occurs after the manager reviews the completed document with the employee.
Approval Before Review Held	If the approval must occur before the manager reviews the completed document with the employee.
Approval No Review Held	If an approval process is required, but the manager does not need to review the document with the employee.
No Approval No Review Held	If neither an approval process nor a review of the complete document is required.
No Approval Review Held	If the manager reviews the completed comment with the employee, but no approval process applies.

Definition ID

Select the approval definition that determines the chain of approvals a document must go through when the manager clicks the **Submit** button on the performance document.

The default values selected on the Document Type page appears here, but can be changed. This field applies only if the Review Process field is set to **Approval After Review Held**, **Approval Before Review Held**, or **Approval No Review Held**. The valid values are listed below:

Definition ID Valid Values	Definition
Manager Only	This is a one-step approval process that routes the transaction to an approving manager.
Manager To Admin	This is a two-step process that routes the transaction to an approving manager and then to the ePerformance Administrator.
Admin Only	This is a one-step approval process that routes the transaction to the ePerformance Administrator.

View Average Rating

Select this check box to view a graphical representation of the ratings on the document.

Cancel Outstanding Evaluations

Select this check box to automatically cancel evaluations that are not completed and nominations that are not accepted when the managers evaluation moves to the **In Progress** status. This option prevents late evaluations from coming in and altering the average ratings.

To complete the Evaluation Rules region on the Process tab - Template Definition page:

The fields in this section defines rules for calculating rating that apply to the document as a whole.

Rounding Rule

Specify how the system should round calculated ratings whenever using the Average calculation method. Select data from the drop-down list. The valid values are **Down**, **Standard**, and **Up**. With standard rounding, the system rounds up on 5 and rounds down on 4. For example, 2.5 rounds to 3, while 2.4 rounds to 2. This works in combination with the number of decimal places the system rounds to. For one decimal place, 2.45 rounds to 2.5, while 2.44 rounds to 2.4.

Decimal Places

If the a rounding rule is selected, enter the number of decimal places for rounding. No more than two decimal places are allowed.

Calculate Ratings

Select this check box to indicate that the system automatically performs all roll-up calculations to calculate an overall summary rating. This feature is the default, and causes a calculate button to appear on the evaluations. To have evaluators manually enter all ratings, clear this box.

Map Method

If the Calculate Ratings check box is selected, select how calculated number ratings are mapped to quantified ratings when there is no exact match after the rounding rule is applied. For example, the calculated rating 2.7 falls between number ratings defined on the Rating Model Table page as 1, 2, 3, and 4; the mapping method defines the number rating to map to the value 2.7. Select data from the drop-down list. The valid values are **Highest**, **Lowest**, and **Nearest**.

For example, assume the rating mode has the following entries:

- A = Superior (numeric rating = 1)
- B = Good (numeric rating = 2)
- C = Average (numeric rating = 3)
- D = Needs Improvement (numeric rating = 4)

If the system calculates a rating of 2.7 (between Good and Average, but closer to Average), mapping method tells the system which entry to pick:

- Highest yields the next numerically highest rating – in this case 3, or average.
- Lowest yields the nest numerically lowest rating – in this case 2, or Good.
- Nearest yields the u=numerically closest rating – in this case 3, or average.

If the calculated rating falls exactly halfway between two ratings in the rating model, the system assigns the numerically higher of the two ratings.

Language Checker

Select this check box to enable the use of the Language Checker tool when entering comments. Click the button on the document to have the system check for inappropriate language in the comments and results text boxes on the evaluation.

13. Click the **Structure** tab. The Structure tab - Template Definition page (**Figure 18**) is displayed.

The Structure tab defines document structure, defines the sections that are included on documents, and adds appropriate sections to the template. The Structure tab allows the section settings to be overridden and defines the way each role interacts with the document section. If one or more sections are selected to be included in the document, the section definition is copied into the document template, and can override any of the section settings.

For each section that is included in the document, specify how the document roles interact with that section; the actions that can be performed, the contact that is visible, and the writing tools that can be used to enter ratings and comments.

Multiple sections can be added that require ratings. These sections can be any content type defined in the Manager Profile business process; such as goals, objectives, and competencies sections. Sections can also be defined to pull content from nonperson profiles created in the Manage Profile business process.

Each section may have different calculation methods. Because sections can be added that have different calculation methods, the following table illustrates how the calculation methods the other sections of the document can use and whether the calculation method permits section weighting:

Calculation Method for Overall Summary Section	Calculation Methods Allowed for Other Sections	Section Weighting Allowed?	Rating Calculations
Review Band	<p>Average and Summation</p> <p>The review points must be added in addition to numeric ratings for these sections. The system converts section ratings to review points to determine the overall rating.</p>	No	<p>Only available for Overall Summary sections. To use this method, the rating model that is associated with the Overall Summary section must include a performance document band and define review points as well as point ranges (from points and to points). The system uses the points in its calculations and:</p> <ol style="list-style-type: none"> 1. Calculates the overall points by following the same steps as the summation method. 2. Converts the overall points into the appropriate review band according to the rules defined on the Rating Model page.

Calculation Method for Overall Summary Section	Calculation Methods Allowed for Other Sections	Section Weighting Allowed?	Rating Calculations
Average	Average	Yes	<p>-To determine item ratings, enter the item rating. If sub items exist, the system calculates the item rating by taking the average of the sub-item.</p> <p>-To determine section ratings, for sections other than Overall Summary, the system looks to see if there are items that are rated. If there are no other rated items, enter the section rating. If there are rated items, the system determines if any of the items are weighted. If there are:</p> <ul style="list-style-type: none"> ■ -Weighted items - The system calculates the rating as a weighted average of all of the item ratings in the section, taking individual item weights into account. Unrated items and items that are not weighted are ignored. <p>-To determine overall ratings, the system checks to see if there are other sections that are rated. If there are no other rated sections, enter the section rating. If there are rated sections, it determines if the sections are weighted. If there are:</p> <ul style="list-style-type: none"> ■ Weighted sections - The system calculates the rating as a weighted average of all of the section ratings in the document, taking individual section weights into account. Unrated items and items that are not weighted are ignored. ■ -No weighted sections - The system calculates the simple average of all rated items. Unrated items are ignored.

Calculation Method for Overall Summary Section	Calculation Methods Allowed for Other Sections	Section Weighting Allowed?	Rating Calculations
Summation	<p>Average and Summation</p> <p>The review points must be defined in addition to numeric ratings for these sections. The system converts section ratings to review points to determine the overall rating.</p>	No	<p>-To determine section ratings, for sections other than the Overall Summary section, the system determines the rating and corresponding review points for each item in the section. Only items with review points are considered. It sums the points to determine the total points for the section.</p> <p>-To determine overall ratings, determine the calculation method for the other sections. If the section rating is calculated using the:</p> <ul style="list-style-type: none"> ■ -Average method - The system converts the section rating to the appropriate number of review points entered for that section, using the rating model associated with the section. ■ -Summation method - The total review points for the section are used as the section points. The points from each section are summed and converted to a document rating using the from and to point range on the rating model that is used for the Overall Summary section.

Figure 18. Structure tab - Template Definition page

14. Complete the fields as follows:

- Document Type

This field is populated with the information entered on the search/add criteria page.
- Template ID

This field is populated with the information entered on the search/add criteria page.
- Effective Date

This field is populated with the information entered on the search/add criteria page.
- *Section

Select a section to include in the documents that are generated from this template.
The sections available for selection are those that were previously defined using the Section Definition page (Figure 13). When the section is selected, the information defined for that section becomes the default information for this section on the Structure tab. Override any default value.

Note: Only one Overall Summary section on each template.

Display Order

Enter a unique sequence number to specify the relative order in which this section appears in the document. The default value for the first section is 10. The system increments the value for the subsequent sections by 10. If, for example, the user overrides a sequence number to 25, the system assigns 35 as the next sequence number.

Note: If the sequence numbers are entered out of order, the system automatically reorders them when the user exits the Template Definition component and reopens it.

Note: To complete the Section section refer to the completion instructions for the [Defining Sections](#).

To complete the Rate/Weight tab - Section Roles region - Structure tab -Template Definition page:

15. Select the **Rate/Weight** tab. The Rate/Weight tab - Section Roles region - Structure tab - Template Definition page (**Figure 19**) is displayed.

Section Roles							
Rate/Weight							
*Role	Rate Section	Rate Item	Rate Sub-Item	Override Rating	Numeric Rating	Weight Section	Weight Item
Employee	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Manager	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Figure 19. Rate/Weight tab - Section Roles region - Struction tab - Template Definition page

16. Complete the fields as follows:

*Role

Select the role. The valid values are **Employee** and **Manager**.

Rate Section

This field is available if Rate is selected for the section. Select this check box to enable the author to assign a section rating.

Rate Item	<p>This field is available if Rate is selected in the the Items page region for the section.</p> <p>Select this check box to enable the author to rate items in the section.</p>
Rate Sub-Item	<p>This field is available if Rate is selection in the Items page region for the section. Select this check box to enable the author to rate sub items in this section.</p>
Override Rating	<p>This option is available when the Calculate Ratings check box is selected on the Template Definition page.</p> <p>Select this check box to have an Override Rating button appear next to the Calculate button on the evaluation.</p> <p>The author can click this button to notify the calculated rating.</p>
Warning! Do not use this feature with the Summation calculation method.	
Numeric Rating	<p>This option is available if Rate is selected for this section.</p> <p>Select this check box to have the evaluation display both the rating and the numeric equivalent points of the rating that is defined on the Rating Model Definition page.</p>
Weight Section	<p>This option is available if Weight Section is selected for the section.</p> <p>Select this check box to enable the author to assign a section weighting.</p>
Weight Item	<p>This option is available if Weight Section is selected for the section. Select this check box to enable the author to weight items in this section.</p>

17. Select the **Section** tab. The Section tab - Section Roles region - Structure tab - Template Definition page (**Figure 20**) is displayed.

Section Roles

Rate/Weight

Section

Item

Profile Management

Role	Comments	View Other	Results Writer	Development Tips	Other Evaluator Comments	Notes
Employee	<input type="checkbox"/>	<input type="checkbox"/>	Not Used	Not Used	<input type="checkbox"/>	<input type="checkbox"/> + -
Manager	<input type="checkbox"/>	<input type="checkbox"/>	Not Used	Not Used	<input type="checkbox"/>	<input type="checkbox"/> + -

Figure 20. Section tab - Section Roles region - Struction tab - Template Definition page

18. Complete the fields as follows:

- Role

Select the role type from the drop-down list. The valid values are **Manager**, **Employee**, and **Peer**.
- Comments

Select this checkbox to have the section contain an area for users to add a free-form description of the employee’s performance on the section. If this checkbox is not selected for a role, the other selections for the role are not available.
- View Other

Select this check box to enable the role to view the sections from other completed evaluations that are part of this document. This option is available to managers only.

***Results Writer**

This field is available only if the Comments check box is selected for the role.

Results Writer suggestions are predefined statements that describe the employees proficiency level for the associated item. The Results Writer tool is designed primarily for competency and sub-competency sections of an evaluation; however, this feature can be enabled for other sections of an evaluation as well.

Select data from the drop-down list to have text suggestions from the Results Writer tool appear on the Suggested Results page when the Writing Tools link is selected on an evaluation.

The valid values are as follows:

Results Writer Valid Values	Definition
Competency	Lists the Results Writer statements that are associated with competencies. Associates statements with sub-competencies on the Sub-Competency Proficiencies - Results Writer page.
Sub-Competency	Lists the Results Writer statements that are associated with sub-competencies. Associates statements with sub-competencies on the Sub-Competency Proficiencies - Results Writer page.
Not Used	If the Results Writer statements should not appear on the Suggested Results page.

***Development Tips**

This field is available only if the Comments check box is selected for the role.

Development tips are predefined statements that suggest how employees can improve proficiency at the associated item and are designed primarily for competency and sub-competency sections of an evaluation. However, this feature can be enabled for other sections of an evaluation as well.

Select data from the drop-down list to have text suggestions from the Development Tips to appear on the Suggested Results page when the Writing Tools link is selected on an evaluation.

The valid values are as follows:

Development Tips Valid Values	Definition
Competency	Lists development tips that are associated with competencies. Associates development tips with competencies on the Competency Proficiencies - Development Tips page.
Sub-Competency	Lists development tips that are associated with sub-competencies. Associates development tips with competencies on the Sub-Competency Development Tips page.
Not Used	If the user does not want development tips to appear on the Suggested Results page.

Other Evaluator Comments

This field is available only if the Comments check box is selected and the role is a manager.

Select this check box to have comments that were entered by other evaluators appear on the Suggested Results page for the role. Only comments from completed evaluations that were entered for the same summary section appear on the list.

Notes

This field is available only if the Comments check box is selected for the role.

Select this check box to have performance notes entered by the employee or manager during the Established Criteria step appear on the Suggested Results page. Only notes entered for the same section item by the same person appear on the list.

19. Select the **Item** tab. The Item tab - Section Roles region - Structure tab - Template Definition page (**Figure 21**) is displayed.

Section Roles							
Rate/Weight	Section	Item	Profile Management				
*Role	Add	Update	Comments	*Results Writer	*Development Tips	Other Evaluator Comments	Notes
Employee	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Not Used	Not Used	<input type="checkbox"/>	<input type="checkbox"/> + -
Manager	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Not Used	Not Used	<input type="checkbox"/>	<input type="checkbox"/> + -

Figure 21. Item tab - Section Roles region - Struction tab - Template Definition page

20. Complete the fields as follows:

Role

Select the role type from the drop-down list. The valid values are **Manager**, **Employee**, and **Peer**.

Add

Select this check box to enable the role to add items to this section.

Update Select this check box to enable the role to update items in this section on the documents that are generated for the role.

Comments Select this check box to have items in the section contain an area for authors to add a free-form description of the employee's performance on the item. If this check box is selected, the Results Writer, Development Tips, Other Evaluator Comments, and Notes check boxes are enabled for the role. The use of these fields is analogous to the same fields under the Section tab - Section Roles region - Structure tab - Template Definition page (**Figure 20**).

***Results Writer** This field is available only if the Comments check box is selected for the role.

Results Writer suggestions are predefined statements that describe the employee's proficiency level for the associated item. The Results Writer tool is designed primarily for competency and sub-competency sections of an evaluation; however, this feature can be enabled for other sections of an evaluation as well.

Select data from the drop-down list to have text suggestions from the Results Writer to appear on the Suggested Results page when the Writing Tools link is selected on an evaluation.

The valid values are as follows:

Results Writer Valid Values	Definition
Competency	Lists the Results Writer statements that are associated with competencies. Associates statements with sub-competencies on the Sub-Competency Proficiencies - Results Writer page.
Sub-Competency	Lists the Results Writer statements that are associated with sub-competencies. Associates statements with sub-competencies on the Sub-Competency Proficiencies - Results Writer page.
Not Used	If the Results Writer statements should not appear on the Suggested Results page.

***Development Tips**

This field is available only if the Comments check box is selected for the role.

Development tips are predefined statements that suggest how employees can improve proficiency at the associated item and are designed primarily for competency and sub-competency sections of an evaluation. However, this feature can be enabled for other sections of an evaluation as well.

Select data from the drop-down list to have text suggestions from the Development Tips to appear on the Suggested Results page when the Writing Tools link is selected on an evaluation.

The valid values are as follows:

Development Tips Valid Values	Definition
Competency	Lists development tips that are associated with competencies. Associate development tips with competencies on the Competency Proficiencies - Development Tips page.
Sub-Competency	Lists development tips that are associated with sub-competencies. Associates development tips with competencies on the Sub-Competency Development Tips page.
Not Used	If development tips should not appear on the Suggested Results page.

21. Select the **Profile Management** tab. The Profile Management tab - Section Roles region - Structure tab - Template Definition page (**Figure 22**) is displayed.

Section Roles			
Rate/Weight	Section	Item	Profile Management
			<div>Update Person Profile</div> <div>Person Profile Type Instance Qualifier</div>
Employee			<input type="checkbox"/> <input type="button" value="+"/> <input type="button" value="-"/>
Manager			<input type="checkbox"/> <input type="button" value="+"/> <input type="button" value="-"/>

Figure 22. Profile Management tab - Section Roles region - Struction tab - Template Definition page

22. Complete the fields as follows:

Role	Select the role type from the drop-down list. The valid values are Manager , Employee , and Peer .
Update Person Profile	This field is available if the section items have the Rate check box selected and if a content type is entered in the Content Type field in the Items group box on the Structure tab -Template Definition page (Figure 18). Select this check box for the system to update the employee's profile in the Manage Profiles business process with this document.
Person Profile Type	This field is available if the Update Person Profile check box is selected. Select the profile type from the drop-down list. These profile types are defined in the Manage Profiles business process with an Identity Option equal to Person . The valid values are Person , Integration From ePerformance , and Person (Learning) .
Instance Qualifier	Select an instance qualifier from the drop-down list that distinguishes this evaluation from other evaluations in the Manage Profiles business process. ePerformance delivers an instance qualifier to be identified. The valid values are Supervisor/Manager , Self Evaluation , and Other .

To continue completing the Structure tab - Section Items page region - Template Definition page:

The fields in this group box are available only if the Enable Items check box is selected on the Structure tab - Template Definition page (**Figure 18**). Items automatically appear here when the Load Content From Profile link is selected.

To complete the Content tab on the Template Definition page:

23. Select the **Content** tab. The Content tab - Template Definition page (**Figure 23**) is displayed.

The Content page allows the adding of criteria to sections, defines the specific job attributes or content items by which an employee is to be measured. Only those sections that were included on the Structure tab - Template Definition page (**Figure 18**) are available on the Content page.

Criteria on the Content page can come from three sources:

- Content Catalog.

Items and sub-items from the Content Items Detail (JPM_CAT_ITEMS) table.

Note: The user can define unique coded categories of performance criteria. To do so, use the Application Designer to create tables that store the items for the new criteria type. The tables that are created are then referenced as prompt tables in document template and evaluations. Include the fields in the table that are defined: EP_ITEM_ID (key), EP_TITLE, EFFDT (optional key), EFF_STATUS (optional), EP_DESCR254 (optional).

- Free Form Items.

Free-form items are criteria that are not stored in the database. Free-form items enable the user to fine-tune evaluations to an individual employee or a small group of employees. Add free-form criteria to the templates to create performance documents. It also enables managers, employees, or both to add free-form assessment items after the performance document is generated.

- Download from the Non-person profile.

Items and sub-items can be added from nonperson profile defined in the Manage Profiles business process. The system uses the specified profile type to identify content and automatically adds it to the Content tab - Template Definition page (**Figure 23**)

The criteria defined on the Content tab - Template Definition page (**Figure 23**) is automatically pulled into the document that is generated using the specified template.

Only the sections entered on the Structure tab - Template Definition page (**Figure 18**) are available on this page. To add more sections, go to the Structure tab - Template Definition page.

Figure 23. Content tab - Template Definition page

24. Click the **Load Content From Profile** link to display The Load Content From Profile page (**Figure 24**). The items selected will automatically appear on the Section Items page region of the Content tab - Template Definition page (**Figure 23**)

Load content from profiles. Profiles can be used to load criteria into sections.

Figure 24. Load Content From Profile link page

25. Complete the fields as follows:

Content Type	This field is populated from the Structure tab - Template Definition page (Figure 18)
Profile Type	Select data from the drop-down list. The valid values vary based on the profile types created.
Profile ID	Select data by clicking the search icon.

26. Click **Search**. A list of Select Items is displayed.

OR

Click **Clear** to clear the selection.

27. At this point, the following options are available:

Step	Description
Click Select All	To select all the Item ID's listed
Click Deselect All	To deselect all the Item ID's selected.
Click Add Item	To correct a historical record.

Note: Remember these items become part of the template. It is best to only have common items that fit all employees.

To continue to complete the Content tab:

Document Type	This field is populated with the information entered on the search or add criteria page.
Template ID	This field is populated with the information entered on the search or add criteria page.

At this point, the following options are available:

Step	Action
Click Notify	To send a notification.
Click Add	To Add A New Value.
Click Update/Display	To update the display.
Click Refresh	To refresh the page.
Click Correct History	To correct a history record.
Click Next In List	To proceed to the next available tab.

Step	Action
Click Previous In List	To go back to the previous tab. This option is not available if on the General tab - Template Definition page (Figure 16).
Click Return To Search	To search for another record.

Cloning Template Definitions

This option allows the cloning of a template.

To clone Template Definitions:

1. Select the **Set Up HRMS** menu.
2. Select the **Product Related** menu group.
3. Select the **ePerformance** menu item.
4. Select the **Document Structure** menu item.
5. Select the **Clone Template Definition** component. The Find An Existing Value tab - Clone Template Definition page (**Figure 25**) is displayed.

Figure 25. Find An Existing Value tab - Clone Template Definition page

6. Complete the fields as follows:

Document Type

Enter the document type that should be cloned or select data by clicking the search icon.

Document Template ID	Enter up to eight alphanumeric characters for the new template ID and document type combination that should be cloned.
Effective Date	Enter the effective data for the new template or select a date from the calendar icon.
Description	Enter the applicable description

7. Click **Search**. The Clone Template Definition page (**Figure 26**) is displayed.

OR

Click **Clear** to clear the information entered.

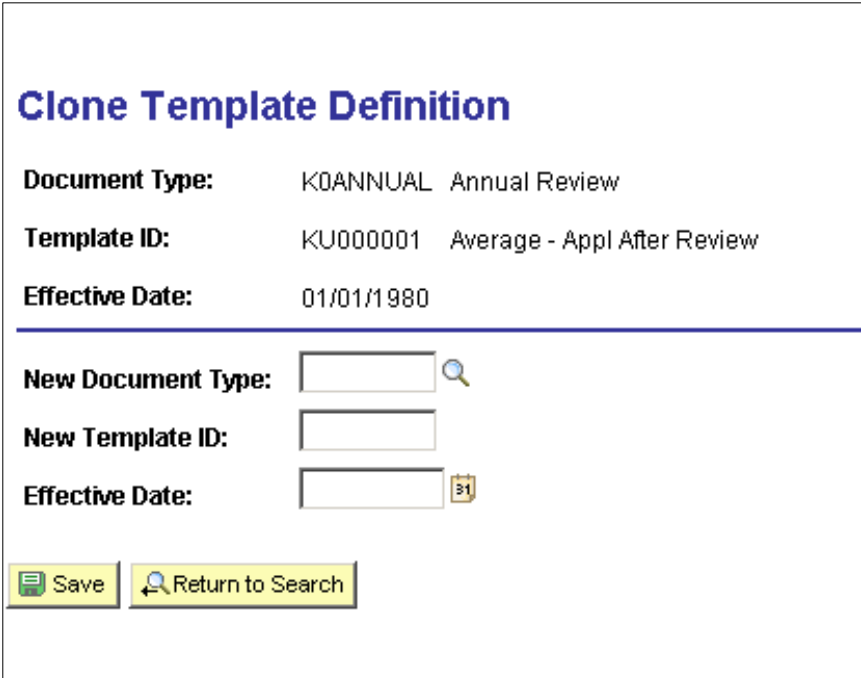

Figure 26. Clone Template Definition page

Note: All fields may be entered to narrow the search.

8. Complete the fields as follows:

Document Type	This field is populated with the information entered on the search criteria page.
Template	This field is populated with the information entered on the search criteria page.
Effective Date	This field is populated with the information entered on the search criteria page.

New Document Type	Enter the new document type or select data by clicking the search icon.
New Template ID	Enter the document template ID that corresponds to the document type.
Effective Date	Enter the effective date for the template definition or select a date from the calendar icon.

- Click **Save**. The **Template Definition** component opens the new template can be updated. For more information, refer to [Defining General Template Information](#).

Setting Up Text For Advisor Tools

This section provides an overview of advisor tools and includes the following topics:

[Understanding Advisor Tools](#)

[Defining Content For The Language Checker Tool](#)

[Defining Content For The Development Tips And Results Writer Tools](#)

[Linking Development Tips To Competencies And Sub-Competencies](#)

Understanding Advisor Tools

There are common elements in the Advisor Tools. The following is a list of these comment elements and definitions:

Common Elements	Definition
Language Checker	<p>Evaluators use the Language Checker tool during the evaluation process to identify words or phrases in a performance document that an organization deems objectionable and to view suggested alternatives. The system checks all Comments text boxes for inappropriate content.</p> <p>The user can manually define content for the Language Checker tool, or can import data from a third-party vendor.</p> <p>Note: To enable the Language Checker tool, select the Language Checker check box on the General Tab - Template Definition page (Figure 16).</p>
Results Writer	<p>Evaluators use the Results Writer tool to select predefined statements that describe an employee's level of proficiency in a particular competency or sub-competency. Managers can use this tool by clicking a Writing Tool link that appears in the comments box at the item or section level on the evaluation. For example:</p> <p><i>Bob's initiative is very impressive. He does not wait to be told what to do. His energy sets an example for the rest of the team.</i></p> <p>When the user defines competencies and sub-competencies, the user can use the Results Writer page of the Competency and Sub-Competency components to enter the statement from which managers can select when using the writing tools. This information can be imported from third-party suppliers.</p>
Development Tips	<p>Development tips suggest ways for employees to improve, develop, or use a competency or sub-competency based on their current rating level. ePerformance displays the appropriate set of tips when the Writing tools link is selected on the evaluation.</p>

This section contains the following topics:

[Template Setup For Results Writer And Development Tips Use](#)

[Search Collections For Results Writer And Development Tips](#)

Template Setup For Results Writer And Development Tips Use

Text can be defined for these tools at either the competency or sub-competency level and then set up the document template to access this test. The template rules control the level of text, by competency or sub-competency, that the system searches to find text suggestions for a section or item. The user must set up the template rules to correspond to the level at which the text is defined. For example, if the user defines text or brings in text from a third party at the sub-competency level, then set the Results Writer and Development Tips template switches to **Sub-Competency** for the tool to locate text.

The combination of the level at which text is defined, the level at which the tool is enabled on the document template, and the ratings that are entered, determine the suggested results that appear when the user clicks the Writing Tools link on a evaluation.

This table displays the results for the possible combinations of link level, text level and ratings entered.

Writing Tools Link Appears At Level	Text Defined At Level	Ratings Entry Required	What Appears In Suggested Results
Item	Competency	The item rated. If using subitems (behaviors), the item rating was calculated.	Competency text for the item and rating.
Item	Sub-Competency	At least one subitem for the item is rated.	Sub-competency text for the item, subitem, and rating.
Section	Competency	At least one item in the section is rated. If the item has subitems, the item rating was calculated.	Competency text for the item and rating. The Results Writer tool returns one or more entries for every rated item in the Section. The Development tips tool returns one or more entries for every rated item in the section.
Section	Sub-Competency	Subitem. At least one subitem for an item in the section is rated.	Sub-competency text for the item, subitem, and rating The Results Writer tool returns one or more entries for every rated subitem in the section. The Development Tips tool returns one or more entries for every rated subitem in the section.

Search Collections For Results Writer And Development Tips

Anytime an addition or deletion to Results Writer or Developments Tips item is made, rebuild the search index to reflect the new state of the collection of items. The Writing Tools uses this search index to locate text when either the Results Writer or Development Tips tool is enabled for a section or item.

Defining Content For The Language Checker Tool

To define content for the Language Checker tool, use the Language Checker Suggestions (EP_CHK_SUG_TBL) and Language Checker Work (EP_CHK_WRD_TBL) components.

This section contains the following topics:

[Defining Objectionable Words And Phrases](#)

[Defining Suggested Wording](#)

Defining Objectionable Words And Phrases

This option defines the objectionable words and phrases, and links them to suggested wordings.

To access the Language Checker Word page:

Defining Content For The Development Tips And Results Writer Tools

To define content for the Development Tips and Results Writer Tools, use the Define Development Tips (EP_DEV_TIP_TBL_EP) and the Results Writer (EP_COMP_WRT_TBL) components.

Text entries for the Results Writer and Development Tips tools are related to competencies and their proficiency level, and Sub-competencies and their proficiency level. The user must set up this information before defining text for these tools.

- Rating models.
- Competencies and sub-competencies.
- Competency and sub-competency proficiency levels.

If multiple business unites and setIDs are implemented in *EmpowHR*, the information used and created determines how the business unit and setID functionality is set up for the user ID.

This section lists prerequisites and discusses the following topics:

Click Previous In List	To go back to the previous tab.
Click Return To Search	To search for another record.

Generating Documents

Document generation initiates the evaluation process. The process for generating a document varies depending on the role that is generating the document, and culminates in the creation of a criteria document for each participant identified in the Section Roles group box on the Structure tab - Template Definition page (**Figure 18**).

The roles and for each individual are as follows:

- Manager/Reviewer – Initiates and modifies performance documents for employees, reviews employee comments, and adds comments on performance documents.
- Employee – Views and provides comments on their performance documents.
- HR Personnel – Views the performance plans and has the ability to edit and run reports for missing or late plans.

The Performance module has 4 main elements:

- Manager Self Service
- Employee Self Service
- Manage Performance
- Workflow

The following diagram is an example of the document generation process:

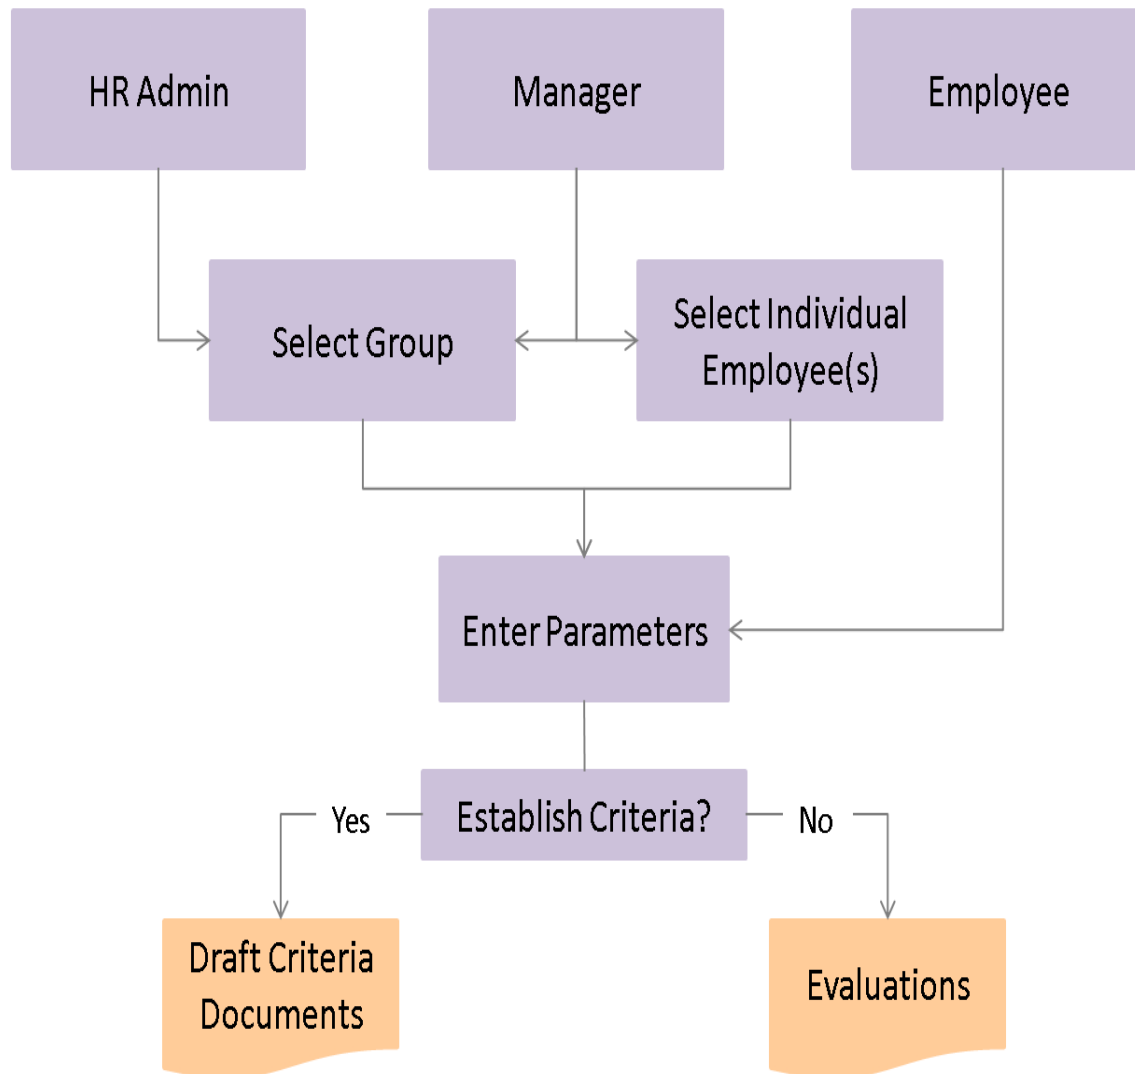

Figure 44. Example - Document Generation Process

Each of these roles can generate documents in different ways:

- HR Administrators schedule a background process and select one or more employee groups.
- Managers can select one employee group that reports to them, select one or more employees from the group, or just select one or more employees that reports to them.
- Employees can only generate documents for themselves.

After the individuals are identified, the process initiator must select the parameters for the document. These include the Document Type, Document Template, and Evaluation Period that is covered. The language code might be required, depending on the installation settings.

For employee-initiated documents, if the employee has more than one job, the job title is required. The employee might also need to select a manager/mentor for the evaluation, if specified for the document type.

Once the parameters have been entered, the system checks the rules associated with the document type and document template.

- Can the employee select their manager?
- Can the document be created by cloning another document?
- Is the document template to be entered by the user or determined by the system?
- Is Establish Criteria enabled?
- Is Nominate Participants enabled?

Based on the rules established by the document type and document template, the system creates an internal baseline document that populates the Document Details - Current Performance Document page (**Figure 60**) with the appropriate steps associated with the evaluation process.

This chapter provides an overview of document generation and contains the following topics:

[Document Generation](#)

[HR Performance Management](#)

[MSS Performance Management](#)

[ESS Performance Management](#)

Document Generation

This section discusses and contains the following topics:

[Cloning Documents](#)

[Document Content](#)

[Initializing From Profiles](#)

Cloning Documents

To facilitate document creation, ePerformance enables managers and employees to clone an existing document. This can be helpful when documents are extensively modified or the same changes apply to multiple employees.

To activate the cloning feature, select the Manager, Employee, or both check boxes on the Document Type page. This causes the Clone from Document field to display on the Create Performance Document and Create Development Document pages.

When managers clone a document, select one of their direct reports' document to use as the source. When employees clone a document, select one of their own document to use as the source. The system uses the structure of the document, not the rating information, as the basis for the new document.

Document Content

The criteria or content items included in a document are determined by the associated template. New items and free-form items can be added to the Criteria document, if the Add

check box is selected for the user role in the Item tab on the Structure page - Template Definition page (**Figure 18**). Free-form items also require the selection of the Free-Form Allowed check box.

Initializing From Profiles

When the Generate Documents and Initialize from the Profile is selected on the Structure tab - Template Definition page (**Figure 18**), the system checks to see if there are items to add to the document based on the nonperson profiles associated with the employees job information.

If initialized from Profile is selected, the system:

1. Identifies the profile type entered in the Profile Type in the Profile Management group box on the Structure tab - Template Definition page (**Figure 18**).
 2. Identifies all Profile IDs associated with the profile type.
 3. Identifies all the profile identity options and keys associated with the Profile IDs.
 4. Orders those profile-identify options according to the sequence defined on the Profile Identity Options - Configuration page (**Figure 24**).
 5. Identify the employee job information record.
 6. Looks at the first profile identity option in the sequenced list and see if there is a data for that item in the employee's job information record that matches the key.
 - If there is a match, add the associated content items from the profile ID to the document.
 - If there is no match, check next profile identity option in the sequenced list.
 - If it is the end of sequenced list, stop.
1. Define Templates.
 2. Identify the template source on the Document Type page.
 3. Define group IDs'.

To generate documents for a group or employees, HR administrators or managers must specify the ID of the group that pertains to the employees they want to process.
 4. Set up notifications on the General tab - Template Definition page (**Figure 16**).

HR Performance Management

This section discusses how to :

[Generate Documents As An HR Administrator](#)

[View Document Creation Results As An HR Administrator](#)

Generate Documents As An HR Administrator

HR administrators schedule a background process and selects one or more employee groups for which to generate documents. The HR Administrator role accesses this menu.

To create a Document: AS An HR Administrator:

1. Select the **Workforce Development** menu.
2. Select the **Performance Management** menu group.
3. Select the **Performance Documents** menu item.
4. Select the **Create Documents** component. The Find An Existing Value - Create Documents page (**Figure 45**) is displayed.

Create Documents
Enter any information you have and click Search. Leave fields blank for a list of all values.

10. Complete the fields as follow:

- Run Control ID** This field is populated with criteria entered on the search/add page.
- Period Begin Date** Enter the beginning date of the period of time that the document covers or select a date from the calendar icon.
- Period End Date** Enter the ending data of the period of time that the document covers or select a date from the calendar icon.
- Document Type** Enter a document type or select data from the drop-down list. The valid values are:

Document Type Valid Values
Annual Review
Job Promotion Review
LCPP
LOC 2477 Performance Appraisal
LOC Performance Plan Template
Performance Document
Performance Improvement Plan
Performance Plan 1
Performance Review
Performance/Salary Evaluation
Progress Reviews
Project Review
Salary Planning
USDA Performance
Update Profile Management
ePerformance 1
ePerformance Testing
Performance Test 2

- Template ID** Select the template ID to generate the documents. This field is available if the template source on the Document Types page is User Defined for this document type.

Manager Selection Method

Specify a method for select manager IDs. When the mass document creation process is launched, the system determines the manager of each employee it processes using data defined in Human Resources. The system needs this information to route email messages to managers informing them that review forms are available, and to associate a manager ID with each document, so that the manager can act as the author of the manager document and the owner of the evaluation process. Select data from the drop-down list. The valid values are:

Manager Selection Method Valid Values	Definition
By Department Manager	The system retrieves a manager based on the department of the employee, using the Manager ID field on the Department Profile page.
By Group ID	The system retrieves the manager from the Manager ID field on the Group Profile page.
By Reports To Position	The system retrieves the manager of the employee's position that is specified in the Position Data component.
By Supervisor ID	The system retrieves the manager based on the Supervisor ID field on the Job Information tab - Job Data page.
By Part Posn Mgmt Dept Mgr ID	The system searches for a Reports To relationship between managers and employees, and then uses the By Department Manager ID selection method if a Reports To ID is found.
By Part Posn Mgmt Supervisor ID	The system searches for a Reports To relationship between managers and employees, and then uses the By Supervisor ID selection method if a Reports To ID is found.

***Group ID**

Specify the employee groups for which documents should be generated. Select data by clicking the search icon.

As Of Date

Enter the date or select a date from the calendar icon. This date is to generate the group that is used in the document creation process. The current date is the default.

Note: The mass creation process always regenerates the selected groups before it creates employee documents.

Description

This field is populated with the description of the Group ID selected.

Language Code

Select a language code to generate documents in a different language than the base language of the database. This field is available only when the Allow Review Language Override check box is selected on the ePerformance Installation table.

11. Click **Save**.

At this point, the following options are available:

Step	Action
Click Notify	To send a notification.
Click Add	To add a new value.
Click Update /Display	To update the page.
Click Return To Search	To search for another record.
Click the Report Manager link	To format a report. For more information refer to Title 1, Chapter 17, Section 14, Reporting.
Click the Process Monitor link	This option allows users to specify the location where a process or job will run and the format used for the output. For more information refer to Title 1, Chapter 17, Section 14, Reporting.
Click Run	This option allows users to specify the location where a process or job will run and the format used for the output. For more information refer to Title 1, Chapter 17, Section 14, Reporting.

View Document Creation Results As An HR Administrator

This option allows the viewing of documents that were created by the background process.

To view a document that was created:

1. Select the **Workforce Development** menu.
2. Select the **Performance Management** menu group.
3. Select the **Performance Documents** menu item.
4. Select the **View Document Creation Results** component. The Find An Existing Value - View Document Creation Results page (**Figure 48**) is displayed.

MSS Performance Management

A Performance Document is a written document that identifies the employee's critical elements and performance standards by which s/he will be rated. Only the Rating Official and/or employee can initiate a new performance document for a new appraisal period. A performance document must be in place for a minimum appraisal period (minimum 90 calendar days), normally, no longer than 15 months for a rating period to be conducted.

In the manager role, the manager can generate documents for direct reports by either:

- Selecting a group and then selecting one or more employees within the group.
- Selecting one or more employees directly.

Regardless of which option chosen, select the As Of date for determining which employees reports to you as a manager. Then select the employees for whom documents should be generated. Finally, select the document template from which to generate the individual documents and enter the dates of the evaluation period that is covered.

Either performance or development documents can be generated. The process is identical, except for the page names and the navigation path by which the document generation pages are accessed.

This section provides an overview of document generation for direct reports and discusses how to generate documents.

This section contains the following topics:

[Create/Edit ePerformance Documents As A Manager](#)

Create/Edit ePerformance Documents As A Manager

The Create Performance Documents option is used to facilitate the management of the performance evaluation process. This option allows several different roles to participate in the feedback process between managers, employees and HR personnel.

The Manager can also create a new performance document, view existing performance documents, enter comments, and evaluates employees.

The Performance Document allows the manager to add new or pre-defined values for each section of the document.

Note: Instructions for Creating a Performance Document is at the top of each page in the *EmpowHR* application.

To create a Performance Document:

1. Select the **Manager Self Service** menu.
2. Select the **Performance Management** menu group.
3. Select the **Performance Documents** menu item to access performance documents as a manager.

OR

Select the **Development Documents** menu item to access development documents as a manager.

4. Select the **Create Documents** component. This component allows the manager to create a document for one employee at a time. The Create Performance (**Figure 50**) is displayed.

OR

Select the **Create Documents By Group** component. This component allows the manager to create a document for a group of employees. The Create Performance By Group page (**Figure 52**) is displayed.

Create Performance Documents
Create new performance documents for one or more of your employees.

Instructions
Follow this 3-step process to create performance documents for one or more of your employees:

1. Enter the date used to find the employees that report to you. You will be able to process only those employees that report to you as of this date.
2. Select the employees you are creating new performance documents for.
3. Enter the document details and select Create Documents.

Enter the Effective Date
Enter the effective date for determining your employees.

Section 1 - LOC Plan Definitions

LOC Plan Definitions will be evaluated by: Employee, Manager

LOC Plan Definitions

Plan Definitions:

1 MAR is one of 3-5 major areas of responsibility for which the employee will be held accountable for producing results that contribute to progress toward organizational goals.

2 Weight indicates percentage of time devoted to and/or relative importance of a major area of responsibility. The percent may be varied or equal.

3 Major Duties include the specific duties that need to be performed in support of a major area of responsibility

Figure 61. Performance Document - Performance Criteria -Draft

At this point, the following options are available: These options are also at the bottom of the page for ease of use.

Option	Description
Click Save	To save the the information.
Click Complete	To finalize the criteria.
Click Add Attachment	This option allows the user to Add Attachment to a Performance Document. The Add Attachment page (Figure 62) is displayed
Click Cancel	To cancel and return to the previous page.
Click the Return To Document Detail link	To return to the Document Detail page (Figure 60).
Click Ready For Review	This option allows for the review of the document by the employee.
Click the printer icon	This option will allow the viewing of the printable evaluation.
Click the notify icon	To send a notification to the employee.

To Add an Attachment:

21. This option allows the user to add attachments to the Performance Document.

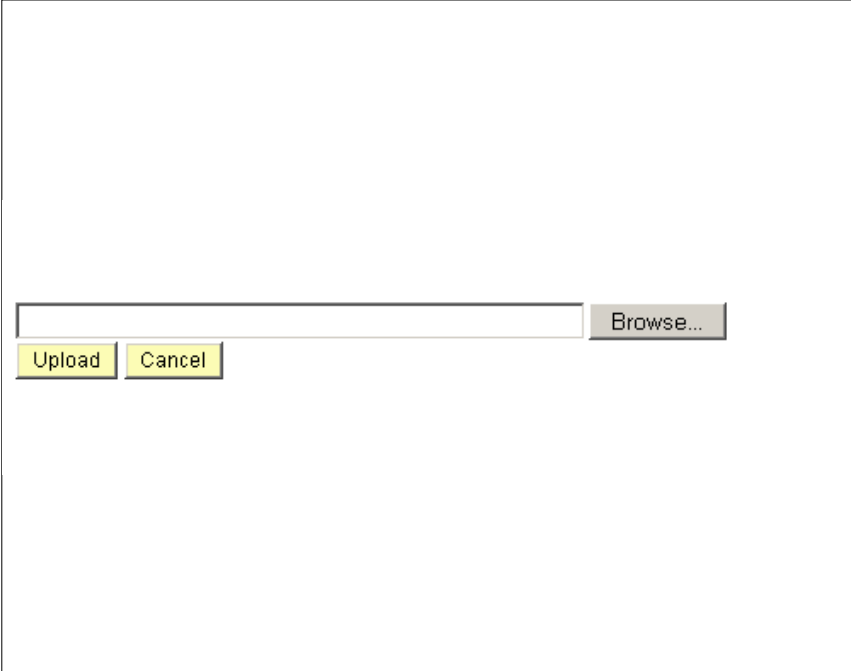

The image shows a screenshot of a web application interface for adding an attachment. It features a large, empty rectangular box at the top. Below this box, there is a horizontal input field. To the right of the input field is a button labeled 'Browse...'. Below the input field, there are two buttons: 'Upload' on the left and 'Cancel' on the right. The 'Upload' and 'Cancel' buttons are highlighted with a yellow background.

Figure 62. Add Attachment page

22. Complete the fields as follows:

Browse... Enter the location of the attachment.

23. Click **Upload** to attach a document or file.

OR

Click **Cancel** to return to the pervious page.

To continue adding criteria in Section 1 - Plan Definitions:

The Plan Definitions section (**Figure 63**) are descriptions of what the Performance Documents will include.

LOC Plan Definitions will be evaluated by: Employee, Manager

LOC Plan Definitions

Plan Definitions:

1 MAR is one of 3-5 major areas of responsibility for which the employee will be held accountable for producing results that contribute to progress toward organizational goals.

2 Weight indicates percentage of time devoted to and/or relative importance of a major area of responsibility. The percent may be varied or equal.

3 Major Duties include the specific duties that need to be performed in support of a major area of responsibility.

4 Performance Requirements state how many times, how well, in what time, in what manner, and to what end a duty must be performed to be considered Successful.

5 Expectations for Accomplishments During Current Appraisal Period include specific results to be accomplished by the employee during the appraisal period. Expectations always have a due date assigned. If no time-bound expectations are listed for a MAR the following statement should be entered in the third column: "Continue to consistently perform major duties according to performance requirements".

Figure 63. Section 1 - Plan Definitions

24. Complete the field as follows:

Plan Definitions

This field describes what the performance document should include. If the Plan exists, this section is populated for review/edit. If the Plan is new, complete the definitions for the Plan.

To continue adding criteria in Section 2 - Strategic Goals:

This Section 2 - Strategic Goals (**Figure 64**) contains the goals of the Performance Plan.

The Strategic goals is a management-approved expression of the performance, threshold(s), or expectation(s) that must be met to be appraised at a particular level of performance. A strategic goal may include, but is not limited to, quality, cost-efficiency, timeliness, and manner of performance.

Section 2 - LOC Strategic Goals

LOC Strategic Goals will be evaluated by: Employee, Manager

The Library's Strategic Plan, 2008-2013

Plan Description:

o Content: Expand and preserve in accessible form a unified and universal body of knowledge and creativity.
Outcome 1: Sustained and expanded Library content, both domestic and foreign, in traditional and new formats.
Outcome 2: Enhanced preservation and accessibility.
Outcome 3: Increased shared content stewardship among libraries and other cooperating bodies.
Outcome 4: Increased creative and intellectual output that contributes to the body of knowledge available to the Congress and other constituencies.

o Customers: Improve our internal and external customer experiences in seamlessly finding and using Library resources.
Outcome 1: Improved customers' ability to get what they need, when they need it, with minimal effort.
Outcome 2: Increased use of Library resources to inform scholarly, educational, and public policy discourse.
Outcome 3: Increased use of the Library's digital resources to promote knowledge and better world understanding.

o Outreach: Increase awareness of the value and utility of the Library.
Outcome 1: Increased congressional use of the Library as its first choice when in need of authoritative research, services, and programs.
Outcome 2: Maximized use of the Library.
Outcome 3: Improved quality of life-long learning and creativity through use of the Library's services and resources.

o Organization: Increase Library-wide synergies and flexibilities to continuously improve quality and efficiency of delivery of products and services.
Outcome 1: Optimized cultural, physical, and technological environment maximizing

Figure 64. Section 2 - Strategic Goals

25. Complete the field as follows:

Strategic Plan, (xxxx - xxxx)

This field is the employee's goals and beginning and ending date for the Performance Plan. If the Plan exists, this section is populated for review/edit. If the Plan is new, complete the Strategic Plan

To continue adding criteria Section 3 - Targets

A Section 3 - Targets (**Figure 65**) may include, but is not limited to, quality, cost-efficiency, timeliness, and manner of performance.

Figure 65. Section 3 - Targets

26. Complete the field as follows:

FYXX Goals

This section describes the but is not limited to, quality, cost-efficiency, timeliness, and manner of performance. If the Plan exists, then this section is populated for review/edit. If the Plan is new, then complete the target goals for the Plan.

To Add Pre-defined/Add Your Own Item(s):

27. Click the + to add additional targets. The Add An Item - Performance Document page (**Figure 66**) is displayed.

The screenshot shows a web interface for adding an item to a performance document. At the top, there is a header 'Performance Document - LOC Performance Document' followed by a sub-header 'Add an Item'. Below this, the user's name 'MARLA GAST, PROG TECHNCN' and the document title 'LOC Performance Document: 05/28/2009 - 05/28/2009' are displayed. There are two radio buttons: 'Add pre-defined item' (which is selected) and 'Add your own Item'. Below the radio buttons is a yellow 'Next' button. At the bottom, there is a blue link 'Return to Performance Criteria'.

Figure 66. Add An Item - Performance Document page

28. Complete the fields as follows:

Add Pre-Defined Item

Select this radio button to select a pre-defined item. If a predefined item is not available, the Pre-defined Item page (Figure 67) is displayed.

The screenshot shows a web interface for adding a LOC unit priority. At the top, there is a header 'Performance Document - LOC Performance Document' followed by a sub-header 'Add a LOC Unit Priorities'. Below this, the user's name 'MARLA GAST, PROG TECHNCN' and the document title 'LOC Performance Document: 05/28/2009 - 05/28/2009' are displayed. There is a search criteria section with a label 'Search Criteria' and a text input field for 'Title:'. Below the input field are two yellow buttons: 'Search' and 'Clear'. Below the buttons, the text 'No matching values were found.' is displayed. At the bottom, there is a blue link 'Return to Performance Criteria'.

Figure 67. Pre-Defined Item page

29. Complete the field as follows:

Title Enter the title of the pre-defined item.

30. Click **Search**. A list of pre-defined items are displayed on the Pre-Defined Results page (**Figure 68**) is displayed. Select the applicable titles.

OR

Click **Clear** to clear the entry.

Description

This field is the description for priority of the unit. If the Plan exists, this section is populated for review/edit. If the Plan is new, complete the unit priorities for the Plan.

To continue adding criteria for Section 5 - Major Area Of Responsibility:

This section is the major area of responsibilities of the employee, the performance requirements, and the expectations of the employee.

This section also allows the Manager to add the weight (criticality) of the responsibility. This section will be evaluated by the Employee and the Manager.

Below is a description of the types of responsibility and performance requirement.

Types Of Responsibility	Performance Requirement
Major Duties	A critical element is a work assignment or responsibilities of such importance, that unacceptable performance in the element would result in a determination that the employee's overall performance is unacceptable.
Performance Requirement	The performance standard is a management approved expression of the performance, threshold(s), or expectation(s) that must be met to be appraised at a particular leave or performance.
Expectations	An expectation may include, but is not limited to, quality, cost-efficiency, timeliness, and manner of performance.

28. Complete the field as follows:

Description

This field is the description for priority of the unit. If the Plan exists, this section is populated for review/edit. If the Plan is new, complete the unit priorities for the Plan.

To continue adding criteria for Section 5 - Major Area Of Responsibility:

This section is the major area of responsibilities of the employee, the performance requirements, and the expectations of the employee.

This section also allows the Manager to add the weight (criticality) of the responsibility. This section will be evaluated by the Employee and the Manager.

Below is a description of the types of responsibility and performance requirement.

Types Of Responsibility	Performance Requirement
Major Duties	A critical element is a work assignment or responsibilities of such importance, that unacceptable performance in the element would result in a determination that the employee's overall performance is unacceptable.
Performance Requirement	The performance standard is a management approved expression of the performance, threshold(s), or expectation(s) that must be met to be appraised at a particular level of performance.
Expectations	An expectation may include, but is not limited to, quality, cost-efficiency, timeliness, and manner of performance.

Click Save	To save the the information.
Click Complete	To finalize the criteria.
Click Add Attachment	This option allows the user to add attachment to a Performance Document. The Add Attachment page (Figure 81) is displayed
Click Cancel	To cancel and return to the previous page.
Click the Return To Document Detail link	To return to the Document Details - Performance Documents page (Figure 79).
Click Ready For Review	This option allows for the review of the document.

Modifying Evaluation Criteria

This section provides an overview of evaluation criteria modifications and discusses how to modify criteria.

The draft criteria document, that is generated from the document template contains the evaluation criteria and item wording that are specified on the document template. The Establish Criteria step enables a manager, an employee, or both to tailor the document templates evaluation criteria for the employee prior to generating evaluations for the employee.

Depending on the role's capabilities on the document template, evaluators can make the following modifications to the criteria document:

- Add items such as goals, responsibilities, competencies, or user defined content items to a section - Add free-form items or select pre-defined items from a prompt table. Free-form subitems can be added or pre-defined subitems can be selected that are already in the Establish Criteria document.
- Criteria cannot be deleted if it is identified as mandatory on the template.
- The criteria detail that can be edited during the Establish Criteria step depends on whether or not the items are defined as mandatory and whether or not the items are coded, as shown in the table below:

If The Item Is	Editable Fields For Coded Items	Editable fields for Not Coded (Free-Form) Items
Mandatory	Status Percent Complete Target Rating	Status Percent Complete Target Rating
Not Mandatory	Supports Critical Ownership Due Date Reminder Date Status Percent Complete Target Rating	Title Description Measurement Supports Critical Ownership Due Date Reminder Date Status Percent Complete Target Rating

When the document criteria is satisfactory, the designed completer completes the document. Individual Evaluations can be generated by role from a completed criteria document. The document can also be reopened for further modifications.

Either a manager or an employee can add performance notes during the Establish Criteria step. These notes are linked to the section and item to which they apply. Later in the process, the person that entered a note can access the note to review, update it, or include it in their section or item comments.

Before evaluation criteria can be modified, The HR Administrator must complete the following tasks:

1. Activate the establish criteria process. Select the Establish Criteria check box on the General tab - Template Definition page (**Figure 16**).
2. Define the rules for the establish criteria process. Complete the fields in the Establish Criteria group box on the Process tab - Template Definition page (**Figure 17**).
3. Activate the ability to add items to the <document type> - Criteria - Draft Document. Select the Add Items - Establish Criteria check box on the Structure tab - Template Definition page (**Figure 18**).

4. Activate the ability to add items to the <document type> - Criteria - Draft Document for each specific role. Select the Add check box in the Item tab on the Structure region - Template Definition page (**Figure 18**).

The following are the pages used to modify Evaluation Criteria:

Note: The navigation paths and page documentation in this section refers to modifying sections of an evaluation document. All sections on a development document work similarly and use the same page formats. The information could be different depending on the template setup.

1. Select the **Manager Self Service** menu.

OR

Select the **Employee Self Service** menu.

2. Select the **Performance Management** menu group. This menu group is accessed by the Manager or Employee.
3. Select the **Performance Documents** menu item or the **Development Documents** to access performance/development documents as a manager.

OR

Select the **My Performance Documents** or **Development Documents** menu item to access performance/development documents an employee.

4. Select the **Current Documents** component. This component allows the manager/employee to view/modify current documents. The Performance Documents (current) list page (ESS) (**Figure 92**) as an employee and Current Performance Documents list page (MSS) (**Figure 96**) as a manager. Development Documents current list page has the same page views and options.

To modify a Current Performance Document (ESS):

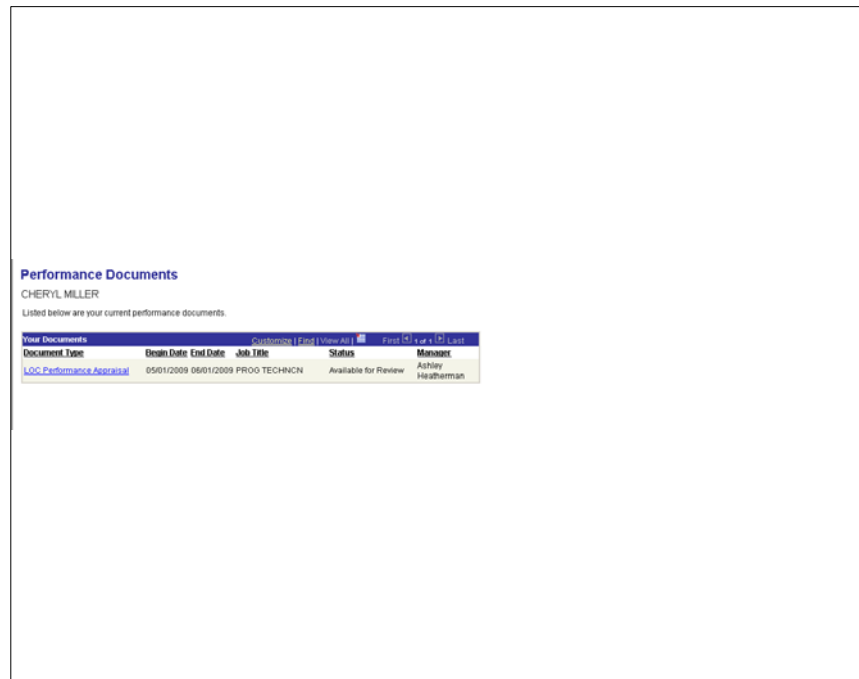

Figure 92. Performance Documents (current) list page (ESS)

5. Select the applicable document type by clicking the **Document Type** link. The Document Details - Performance Documents page (Figure 93) is displayed.

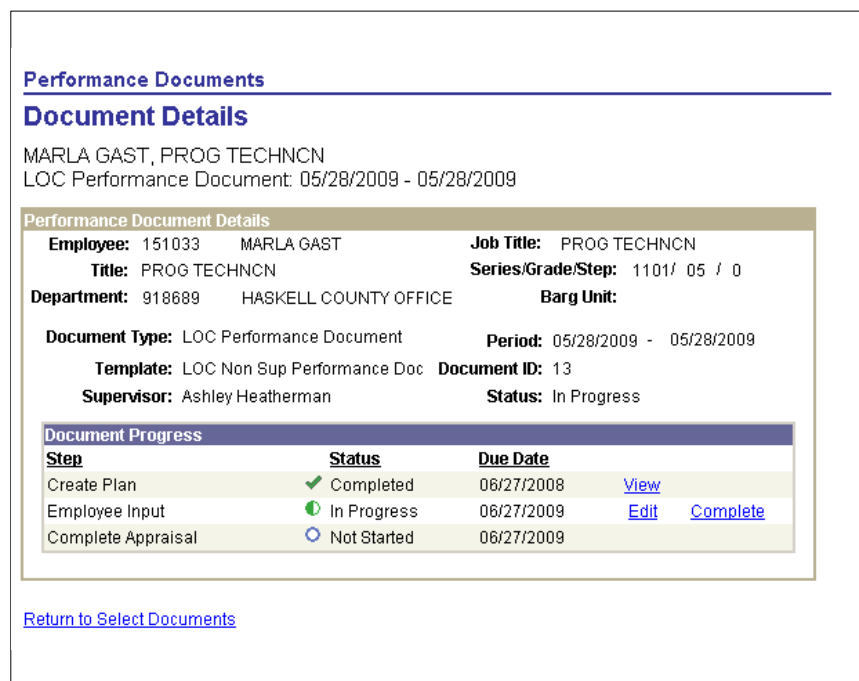

Figure 93. Document Details - Performance Documents page (ESS)

At this point, the following options are available:

Step	Description
Click the Edit link	To edit a document. The Document Details - Draft page(Figure 93) is displayed. For more information regarding the completion of the Document Details page, refer to ESS Performance Management or MSS Performance Management .
Click the View link	To view a completed document.
Click the Complete link	To complete a step in the process. The Employee Evaluation - Current Performance Document page(ESS) (Figure 94) or the

Performance Document - LOC Performance Document

Employee Evaluation

Figure 94. Employee Evaluation - Current Performance Documents page (ESS)

At this point, the following options are available: These steps are also at the bottom of the page.

Step	Description
Click Save	To save the Performance or Document Criteria - Draft document.
Click Complete	To complete the Evaluation Criteria step. This button is only enable if the roles assigned can complete this step. The Complete Document - Performance Document pop-up (Figure 95) is displayed.
Click Cancel	To cancel the changes and return to the Document Details page.
Click Reopen	To reopen a criteria document that was previously completed. This button displays only if the establish criteria process is completed. Note: After a role evaluation is created or a pending nomination is accepted, the criteria document cannot be reopened. This button no longer appears on the document, unless all pending nominations have been cancelled and all evaluations have been deleted.

The screenshot shows a web interface for completing a performance document. At the top, the text 'Performance Document - LOC Performance Document' is displayed in blue, followed by a horizontal line. Below this, the heading 'Complete Document' is shown in bold. The document details are listed: 'MARLA GAST, PROG TECHNCN' and 'LOC Performance Document: 05/28/2009 - 05/28/2009'. A paragraph of instructions follows: 'You have almost finalized your evaluation. If you have no further changes, click the Complete button at the bottom of this page.' Another paragraph states: 'Once you click Complete your evaluation will be finalized and sent to your manager for review.' At the bottom, there are two yellow buttons with black borders: 'Complete' and 'Cancel'.

Figure 95. Complete Document - Performance Document page (ESS)

6. Click **Complete**. The document status will be marked **Complete**.

OR

Click **Cancel**. The Employee Evaluation - Current Performance Document page (ESS) (**Figure 94**) is displayed.

To modify a Current Performance Document (MSS):

Figure 99. Document Details - Current Performance Documents page

Note: The information at the top of the page is the Employees name and title in addition to the document details and time frame covered.

- The following fields are populated and are view only:

Employee	This field is populated with the employee's first and last name.
Job Title	This field is populated with the employee's job title.
Document Type	This field is populated with the type of document selected and should be the same document type at the top of the page.
Period	The field is populated with the period selected and should be the same period at the top of the page.
Template	This field is populated with the template name
Document ID	This field is populated with the document ID number.
Manager	This field is populated with the manager's name that has accessed this performance document.

Status

This field is populated and displays the status of the document.

To view and complete the Document Status region:

Step - Establish Evaluation Criteria

Establish Criteria appears only if the Establish Criteria check box is selected on the General tab - Template Definition page (**Figure 16**).

The table below shows the possible actions for the Establish Criteria step and the conditions under which each step is enabled. The document template is setup on the Establish Criteria region of the Process tab - Template Definition page (**Figure 17**).

Action	Step Status	Document Template Setup
Start	Not Started	The Updated By check box is selected for the role.
Edit	In Progress	The Updated By check box is selected for the role.
Complete	In Progress	The role is selected in Completed By Field.
View Criteria	Complete	This link appears appears to all roles that are defined on the document template.

Action	Step Status	Role
Start	Not Started	Employee
Edit	In Progress	Employee
View	Complete	Employee Manager

Step - Complete Manager Evaluation

This step always appears in the Document Progress region because a manager evaluation is always required. The step is labeled differently depending on the status of the step and the review process selected.

The actions for this step depends on the review option that is selected.

Additional actions for the manager evaluation are available if the document template specifies a review process that required review or approval. These are **Mark Available**, **Review Held**, **Acknowledge**, **Submit**, and **Complete**.

Note: For the purpose of publishing performance results, the definition of **Complete** depends on the performance process that is selected on the General tab - Template Definition page (**Figure 16**) when creating templates. Documents that require approval are considered complete when the approval status is **Approved** and the document status is **Complete**.

Action	Step Status	Role
Start	Not Started	Manager
Edit	In Progress	Manager
View	Complete	Employee Manager

Selecting Documents

This section explains how to access the following documents as a Manager, Employee and a HR Administrator. The navigation for selecting documents is dependant on the individuals Role.

The following sections explain the navigation of each Role.

[Select Current Performance Documents](#)

[Select Current Development Documents](#)

Select Current Performance Documents

The information that appears on page depends on the path with which the page is accessed. Below is an example of Current Performance Documents - Manager Self Service page (**Figure 100**).

This grid lists all documents with status that are not **Complete** or **Canceled** as a manager. **Completed** documents are listed on the Historical Documents page.

1. Select the **Manager Self Service** menu.
2. Select the **Performance Management** menu group.
3. Select the **Performance Documents** menu item to access performance documents as a manager.
4. Select the **Current Documents** component. This component allows the manager to view/modify a document for one employee at a time. The Current Performance Document page(**Figure 100**) is displayed.

OR

Select the **Current Documents By Group** component. This component allows the manager to view/modify a document for a group of employees. The Current Documents By Group page will display.

Entering Comments and Ratings On Evaluations

This chapter provides an overview of evaluation data entry and discusses how to:

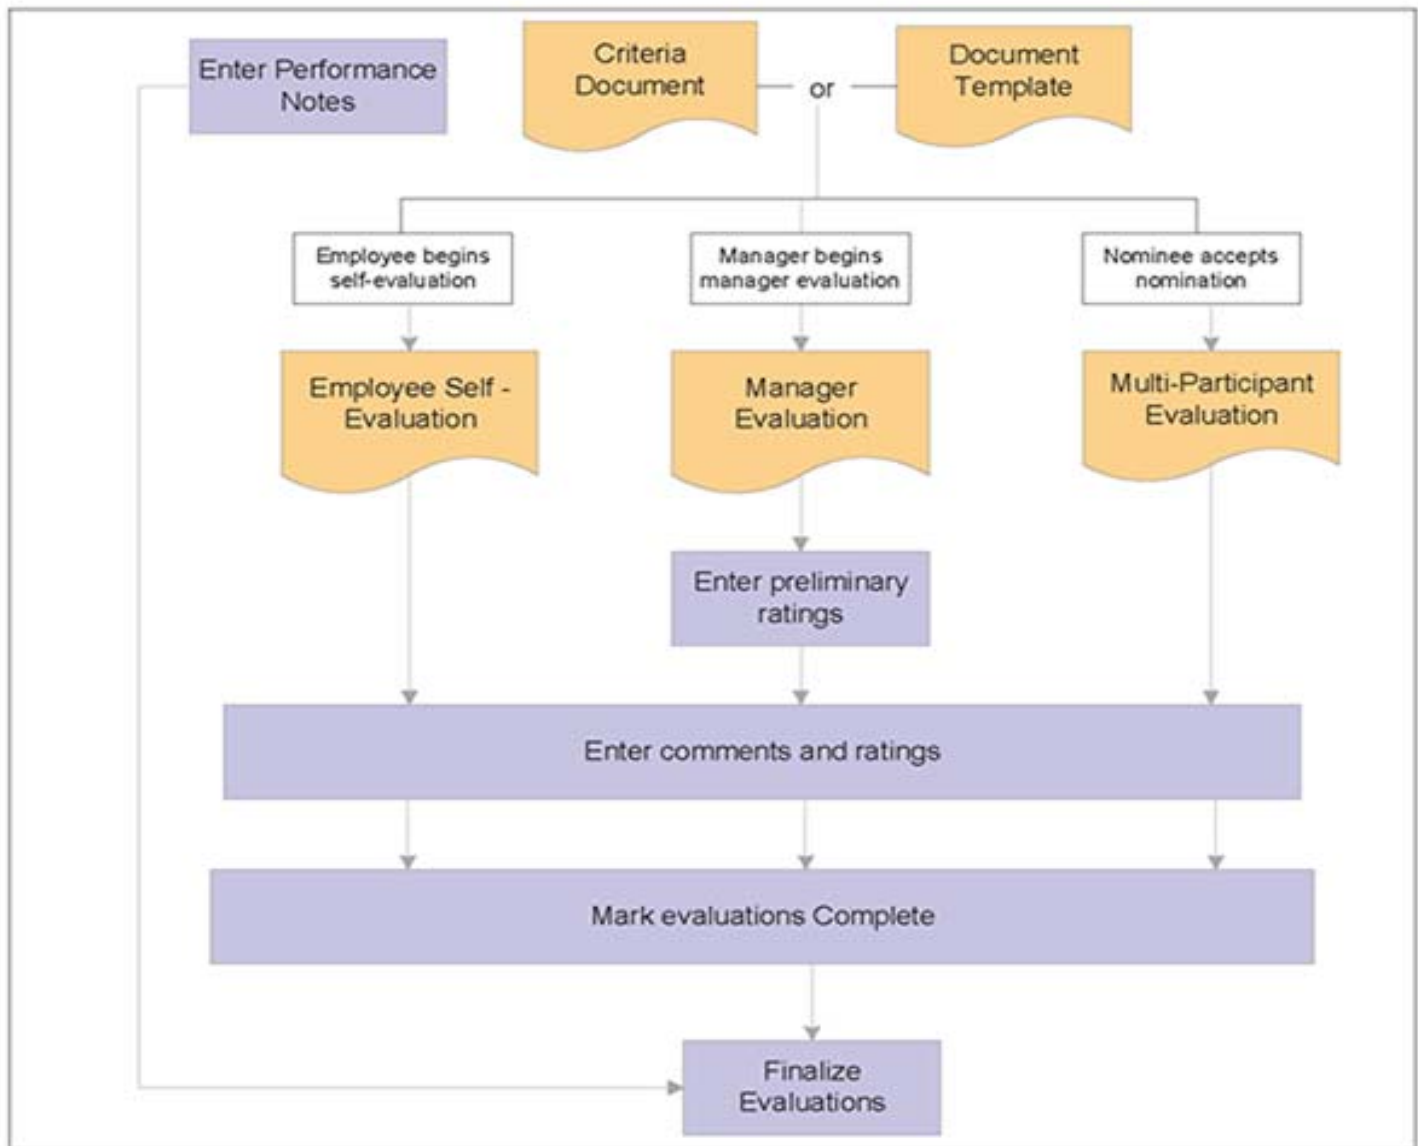

[Record Preliminary Ratings](#)

[Record Performance Notes](#)

Record Preliminary Ratings

ePerformance is designed to support the complete performance and development process from planning to evaluation. An agency can implement the complete process or just portions of it. This section focuses on the part of the process where participants evaluate the employee's performance or development needs against the evaluation criteria.

The diagram Evaluation Data Entry Process (**Figure 106**) shows the flow of the evaluation data entry process, assuming that all options are implemented:

Evaluation data entry process

Figure 106. Evaluation Data Entry Process

The capability to enter preliminary ratings for employees is available to managers only. These ratings are entered before the official rating data is entered in the manager's

evaluation, and they are not entered on the evaluation - they are entered on the Preliminary Ratings Page. This enables the manager to enter preliminary ratings at any time after the document is created, including the Establish Criteria and Nomination steps.

Only the documents that are **In Progress** appear on the Preliminary Ratings page.

Preliminary ratings are used to generate the Ratings Distribution Summary report, which enables managers and HR administrators to compare preliminary ratings with desired and actual rating distributions. Employees cannot see preliminary ratings.

To enable the entry of preliminary ratings, the Preliminary Rating check box is selected for the Overall Summary section on the document template.

To enter Preliminary Ratings:

1. Select the **Manager Self Service** menu.
2. Select the **ePerformance** menu group.
3. Select the **Performance Documents** menu item.
4. Select the **Administrative Tasks** menu item.
5. Select the **Enter Preliminary Rating** component. The Enter Preliminary Ratings (list) page (**Figure 107**) is displayed.

Enter Preliminary Ratings

Listed below are the 'In Progress' performance documents for which you are the Manager. To enter a preliminary rating, select the documents using the checkbox and click the Continue push button.

Record Performance Notes

Regular and open communication between supervisors and employees is vitally important, particularly in a two-tier performance appraisal system where all elements are critical elements.

The Review is a joint discussion between the Rating Official and the Employee regarding the employee's progress toward achieving the performance standards. It does not involve the issuance of a rating of record. Reviews are conducted at least once during a full appraisal period. Normally, these required reviews would be accomplished during the midpoint of the appraisal period. Notes may be entered by the Rating Official and/or Employee. The Rating Official must finalize the plan before a review can be added.

The rating official is encouraged to make written notes concerning the employee's performance at the time of the review. The purpose of the notes is to provide a more formal identification of the employee's performance in relation to the performance document. Employees are also encouraged to provide written comments on the form at this time.

Managers can start or edit a review for their employee(s). When the manager clicks on the Progress Review button, a list of their employees is displayed. The manager has the option to either start a New Review or update an Existing Review. The Performance Reviewer component has two tabs, the Progress Review and the Elements and Standards. On the Progress Review, the manager can save the review. The employee will be notified via a workflow and the review is ready for the the employee's viewing and comment. For more information regarding Performance and Workflow, refer to Title 1, Chapter 17, Section 8, Employee Self Service.

Existing Progress Reviews are used by managers to document/conduct multiple mid-year reviews. To accomplish this, open an existing progress review and add more comments. When they save, the date and signature is captured in the comments field in the chronological order to show multiple progress reviews.

Managers and employees can record notes about an employee's performance and accomplishments in two ways:

1. During the Establish Criteria step. The **Add Note** link appears on a section or item during the Establish Criteria process if enables on the document template. Notes that are added during this step are directly linked to the section and item to which they apply.
2. At any time, by navigating to the Performance Notes page (**Figure 111**). Employees can create records of events, activities, and accomplishments that they can later use to complete their performance evaluations. Similarly, managers can record details of an employee's performance for use when they complete the employee's evaluation. These notes are dated, and are available only to the author of a note. In other words, the manager cannot view notes that the employee enters and vice versa.

Note: There is not a separate page for development notes. The Performance Notes page is used to record any comments, and these notes are available for inclusion in either performance or development documents. The Performance Notes page is located under the Performance Management menu item and do not fall under the Performance Document or Development Document components.

The following topics are also included as part of Performance Notes:

[Ratings And Comments](#)

[Advisor Tools](#)

[Writing Tools](#)

[Language Checker Tool](#)

[Reviews And Approvals](#)

[Finalization Activities](#)

To access Notes:

The My Performance Notes or the Performance Notes page work similarly, except that the My Performance Notes page enables employees to search for and enter notes on their own performance and the Performance Notes page enables managers to search for and enter notes on other employees. Below is an example of My Performance Notes.

1. Select the **Manager Self Service** menu to maintain notes as manager.

OR

Select the **Employee Self Service** menu to add notes as an employee.

2. Select the **Performance Management** menu item.

3. Select the **Maintain Performance Notes** component. The Performance Notes page (**Figure 111**) is displayed.

OR

Select **Performance Notes** component. The My Performance Notes page (**Figure 112**) is displayed.

To complete Performance Notes as a Manager:

The screenshot displays the 'Performance Notes' interface. At the top, there is a header with a document icon and the title 'Performance Notes'. Below this is a section titled 'Instructions'. Under 'Instructions', there is a 'Selection Criteria' section with a search bar containing 'ID:' and a magnifying glass icon, a 'Search' button, and two date pickers labeled 'Earliest Note Date' and 'End'. To the right of the search criteria is a 'Selected Note(s)' section with 'Delete' and 'Transfer' buttons, and links for 'Select All Notes' and 'Clear Selections'. At the bottom left, there is an 'Add a New Note' button. A message at the bottom states: 'There are no existing notes for the specified search criteria.'

Figure 111. Performance Notes page (MSS)

4. Complete the fields as follows:

*ID	Enter the employee ID of the subject employee or select data by clicking the search icon. The ID field appears only on the manger version of this page, since employees can only view their own notes.
Earliest Note Date	Enter a date or select a date from the calendar icon. If no date is entered, all notes for the employee regardless of date entered appear in the Existing Performance Notes for the Employee grid.
End	Enter the end date or select a date from the calendar icon. If no date is entered, all notes for the employee regardless of date entered appear in the Existing Performance Notes for the Employee grid.

At this point, the following options are available:

Step	Description
Click Search	To view a list of performance notes that meet the search criteria.
Click Add A New Note	To access the Performance Notes New Note page (Figure 113), where a new note can be created.
Click the Select All Notes link	To view or modify the details of the note, or select one or more notes to delete or transfer.
Click the Clear Selections link	To clear the selected item.
Click Delete	To remove the note(s) from the system. Select one or more listed notes to delete.
Click Transfer	To transfer the note(s) from the system. Select one or more listed notes to transfer.

- 5.** Complete the fields as follows:

Earliest Note Date

Enter a date or select a date from the calendar icon. If no date is entered, all notes for the employee regardless of date entered appear in the Existing Performance Notes for the Employee grid.

End

Enter the end date or select a date from the calendar icon. If no date is entered, all notes for the employee regardless of date entered appear in the Existing Performance Notes for the Employee grid.

At this point, the following options are available:

Step	Description
Click Search	To view a list of performance notes that meet the search criteria.
Click Add A New Note	To access the Performance Notes Detail page (Figure 113), where a new note can be created.
Click the Select All Notes link	To view or modify the details of the note, or select one or more notes to delete or transfer.
Click the Clear Selections link	To clear the selected item.

Step	Description
Click Delete	To remove the note(s) from the system. Select one or more listed notes to delete.
Click Transfer	To transfer the note(s) from the system. Select one or more listed notes to transfer.

- Click **Add A Note**. The Performance Note - New Note page (**Figure 113**) is displayed. This page is the same for a manager or an employee.

Figure 113. Performance Notes - New Note

- Complete the fields as follows:

Created	This field is populated with the date and time the performance notes were created.
Creator	This field is populated with the name of the individual that created the performance note.
Updated	This field is populated with the date the performance notes were updated.
By	The field is populated with the name of the individual that updated the performance note.

Subject	This field is the subject of the performance note. Enter the subject narrative.
Note Text	This field is the performance note. Enter the applicable performance note.

At this point, the following options are available:

Step	Description
Click Save	To save the notes.
Click Undo Changes	To clear the notes that were entered.
Click the Performance Note Selection link	To return to the Performance Notes page.

Ratings And Comments

The performance document template setup enables the configuration of evaluations for each role (employee, manager, and multi-participant) to only include section, item, and features that are appropriate for the role to evaluate. For example, on a project review, Goals, Initiatives, Competencies, and comment might be included on all sections. However, might include only the Competencies and Overall Summary sections on multi-participant evaluations.

To evaluate an employee's performance, a participant can enter and update ratings and comments as permitted by the template at any time during the performance period. This evaluation information is visible to employees and managers only after the evaluations are completed.

Ratings are entered at either the section, item, or subitem level. If the document is set up to automatically calculate rating, ratings from lower levels are averaged and rolled up to the higher levels. The manager rating (calculated or manually entered) on the manager's evaluation is used by writing tools to select appropriate text.

Managers can view other authors to view comments and ratings from evaluators in other roles.

Note: A manager can include comments that other evaluators entered on a section or item only if the manager also has comments enables for the same section and item.

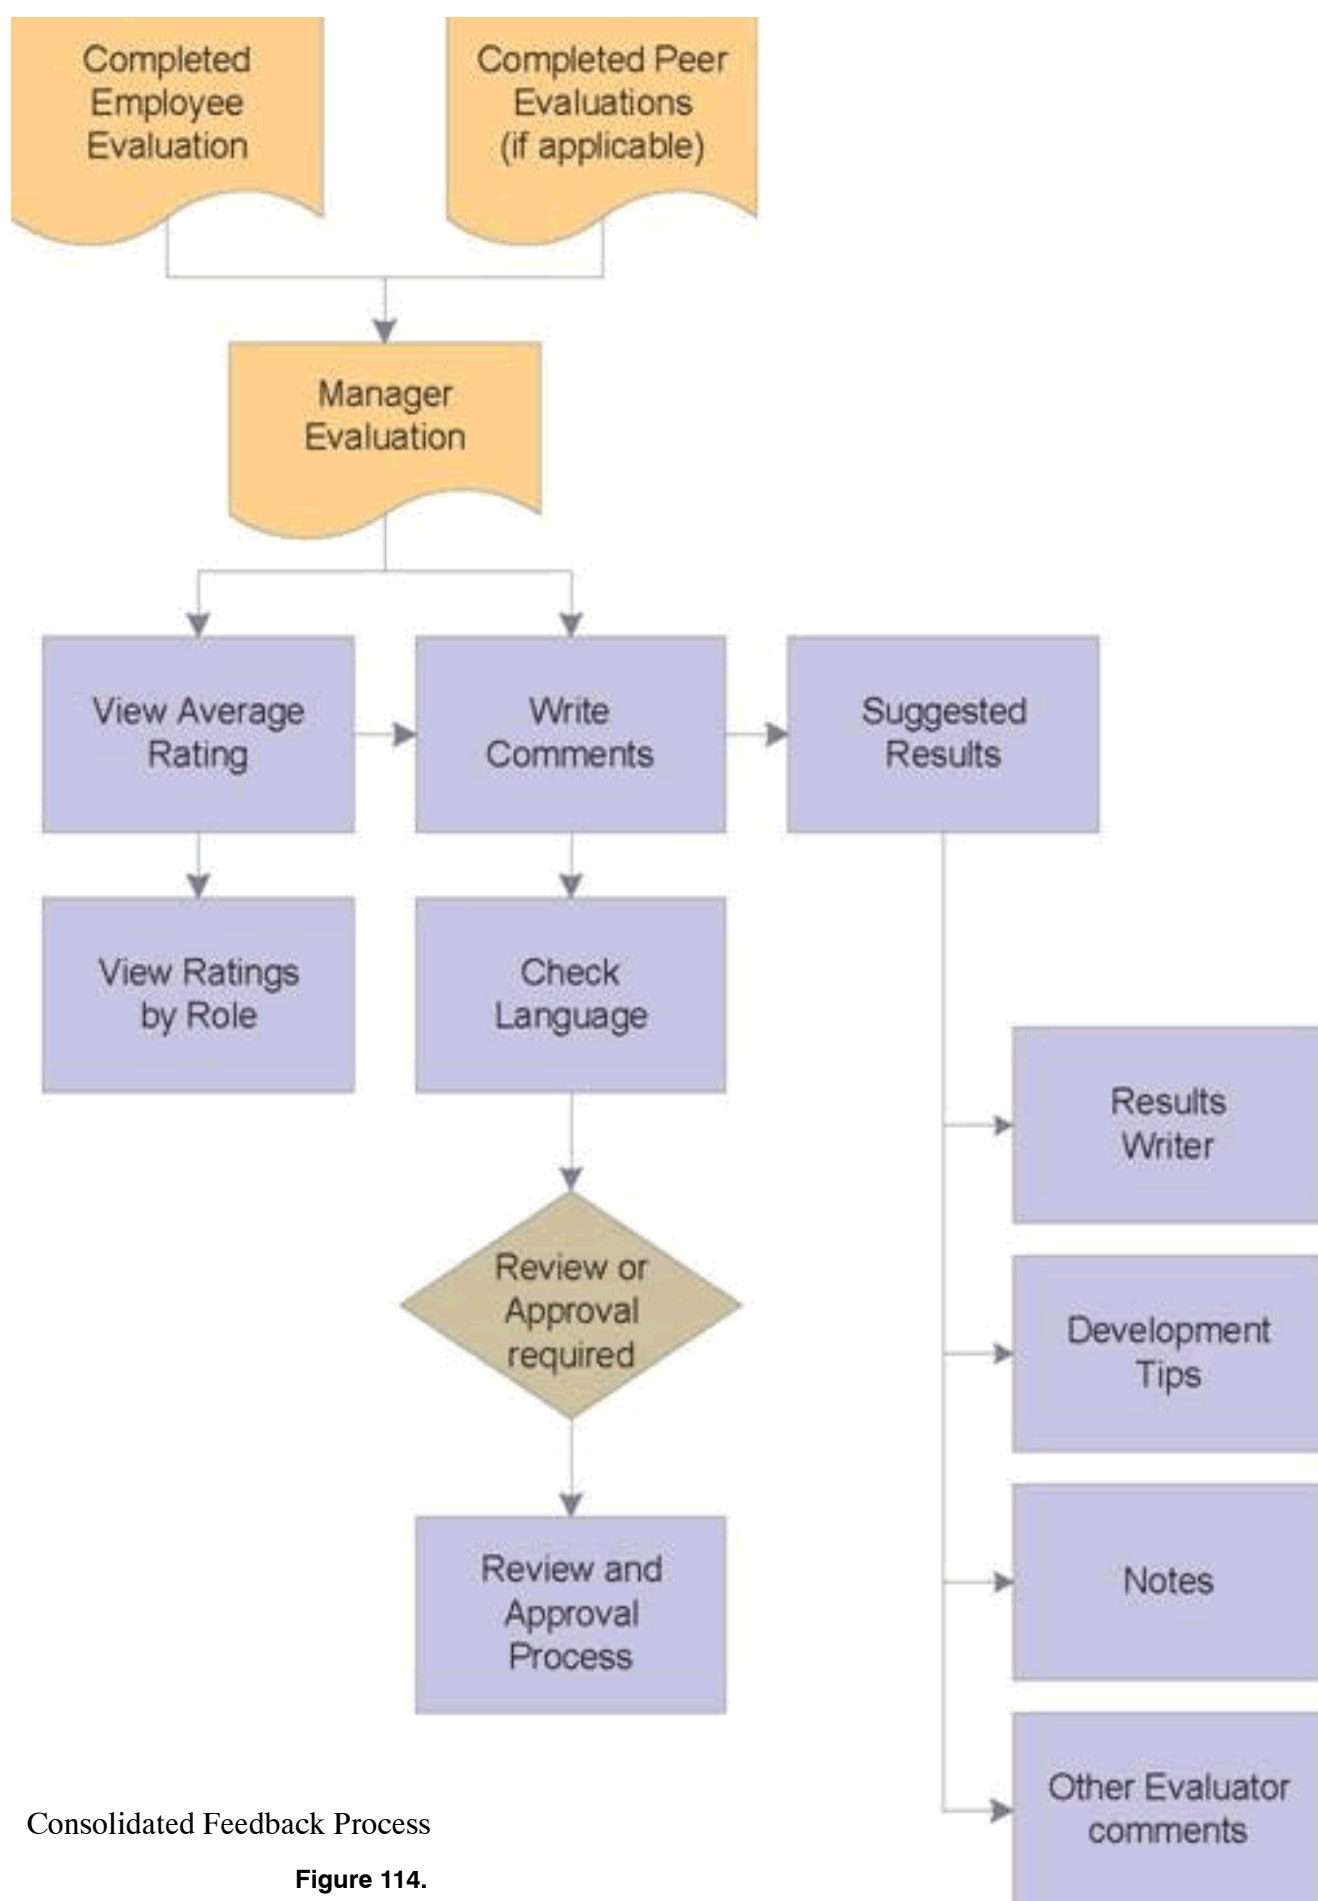

Advisor Tools

Depending on the capabilities granted to the participant's role on the document template, any evaluation participant might have access to the Development Tips or Results Writer tools. These tools provide suggestions for incorporating into comments. Actual usage of these tools most often occurs when the manager role consolidates feedback and finalizes evaluations.

Finalization Activities

Although managers can rate items, add comments to their evaluations, and record notes anytime during the evaluation cycle, additional steps must be performed to finalize and complete evaluations. These steps include writing final evaluation comments and conducting reviews and approvals if required.

After evaluations are complete, the manager consolidates feedback and ratings into the manager evaluation. The manager conducts a review with the employee (If a review process is required) and submits the evaluation for approval (if an approval process is required).

Consolidated Feedback Process

Figure 114.

Writing Tools

The **Writing Tool** link accesses the Suggested Results page (**Figure 115**) which contains text suggestions that assist evaluators in writing comments. These suggestions can come from any of several different sources, provided that as they are enabled for the section or item on the document template.

The Suggested Results page presents text items that are most directly related to the section and item. Select a tools from the available options in the Find Additional Content field to use an advanced search for text that is not directly related to the section, items, and rating from which the writing tool was accessed to search for text suggestions.

Figure 115. Writing Tools: Suggested Results page

Below are the possible sources for text suggestions:

Source	Description
Results Writer	Contains predefined statements that describe an employee's proficiency for a given competency or sub-competency. These statements appear on the Suggested Results page for competency sections only. Other sections can be located for results statements by using the advanced search. Note: A section must be rated before a section or item suggested results appear.
Development Tips	Consist of predefined statement that provide tips on how employees can develop their proficiency. Development tips are related to competencies or sub-competencies, but can apply to other evaluation criteria as well. Note: A section must be rated before development tips appear.

Source	Description
Comments	<p>A manager can view comments that evaluators in other roles have entered for the same section and item. Comments from another evaluator appear only if the role's evaluation status is Complete.</p> <ul style="list-style-type: none"> ■ If the Suggested Results page is accessed from an item, all comments from complete evaluations for the item appear. ■ If the Suggested Results page is accessed from a section, only comments from complete evaluations for the section appear. Comments do not appear at the item level.
Performance Notes	<p>The performance notes that were entered during the Establish Criteria for the section are available on the Suggested Results page, and are available only to the person who entered the note.</p> <p>Note: Employees and managers can also enter notes that are not directly tied to an evaluation. Search for these notes using the advanced search capabilities.</p>

Language Checker Tool

The Language Checker tool alerts managers to inappropriate language that appears in a manager's evaluation and suggest alternative language. It is enabled on the document template for an evaluation as a whole and is not turned off or on at the section or item level.

Update Evaluations

This section discusses how to enter and maintain evaluation data.

Before entering evaluation data as a manager or employee, complete the Establish Criteria step, if it is specified on the document template. To enter evaluation data as another participant, a nomination must have been received and accepted to participate in the evaluation.

Note: The availability and order of the pages below depends on the template being used and the role of the participant.

Evaluations are divided into sections, with each section containing a different type of content. Sections contain the items and subitems against which an employee's performance is evaluated and can include mission statement, goals and objectives, responsibilities, competencies, employee comments, manager comments, and overall summary, signature lines, or organization-specific sections that were defined in the template.

Each Role evaluation contains header information that identifies the role and the person who is evaluated. The header information also contains instructional text is system data that is supplied with the ePerformance function, but can be modified by using the Text Catalog.

The information that displays in a section depends on the type of section, special processing associated with the section, and the parameters selected on the Structure tab - Template Definition page (**Figure 18**).

To enter and maintain evaluation data:

1. Select the **Manager Self Service** menu.

2. Select the **Performance Management** menu group.
3. Select the **Performance Documents** menu item.
4. Select the **Current Documents** component. The Document Details - Current Performance Documents (complete status) page (**Figure 116**) is displayed.

Figure 117. Manager Evaluation - Performance Document (top) page

1. Complete the fields as follows: (The name, title, and evaluation dates are at the top of the page).

Author	This field is populated and is the name of the manager or participant.
Role	This field is populated and is the role of the manager or participant.
Status	This field is populated based on the status of the evaluation.
Due Date	This field is populated with the due date that is established on the document template.
Approval	This field is populated with the approval status.
EmplID	This field is populated with the employee ID.
Title	This field is populated with the employee's job title.
Department	This field is populated with the department numeric location code and the narrative name for the location code.

Barg Unit This field is populated with the Bargaining Unit Code.

Series/Grade/Step This field is populated with the employee’s series, grade and step.

Enter the ratings and comments for each section in the evaluation, if applicable.

The screenshot displays a web-based form titled "Section 5 - Major Area of Responsibility". At the top, there is a link "View Other Authors". Below this, the form has a header "write empowhr eperformance procedure". The main content area includes several fields: "Requirements: complete project before implementation", "Expectations: due dates are met", and "Major Duties: Critical: Yes". There is a "Rating" dropdown menu set to "Commendable" and a "Weight" field set to "50 %". A "Comments" section with a "Writing Tools" link is also present. At the bottom, there is a button labeled "Add Major Area of Responsibility".

Figure 118. Manager Evaluation - Section (X) Major Area Of Responsibility (MAR)- Performance Document page

2. Complete the fields as follows:

Requirements This field is populated with the requirement of the MAR.

Expectations This field is populated with the employee’s expectations of the MAR.

Major Duties This field is populated with the major duties expected of the employee.

Critical The Critical field displays if the Critical check box is selected on the Structure tab - Template Definition page (**Figure 18**). **Yes** or **No** displays as the content for the Critical field if it is defined on the Content -Template Definition page.

Rating

Enter the rating or select a rating from the drop-down list. The valid values are based on the document template.

This field is populated with the average of the rating for the particular section. This field displays if the Rate check box is selected for the section and the applicable Rate Section, Rate Item, or Rate subitem check box is selected in the Rate/Weight tab on the Section Roles grid.

View or enter ratings. The action that is permitted depends on the level (subitem, item, section) where the field occurs if calculation is enabled in the document template, and the user actions that the template definition permits.

For example, at the overall summary and section summary level, the rating field is read-only unless the role has permission to override system-calculated ratings or calculate field was not enabled on the document template.

Weight

Enter the weight of an item relative to the other items in the same section or relative to other sections in the evaluation.

The weight field displays if the Weight check box is selected for the section and the applicable Weight Section or Weight Item check box is selected in the Rate/Weight tab - Section Roles grid.

Note: The sum of the weights for all items in a section or all sections in a document, must equal 100 percent in the manager's document.

Comments

Enter comments regarding the rating given.

The Rating, Average Rating, Rating, and Summary Weight will be completed for each Section of the document.

Performance Document - LOC Performance Document

Submit for Approval

Catherine Hurst Weber, HUMAN RESOURCES SPEC (LABOR RE)
LOC Performance Document: 06/17/2009 - 06/17/2009

You have chosen to submit this performance evaluation for approval. To confirm that you would like to submit the evaluation for approval, click the Submit button.

Do not submit this evaluation until you have completed each section. Once you click Submit, the evaluation will be routed through the approval process to the appropriate individuals. You will then be notified through email on the approval status.

Figure 120. Manager Evaluation - Submit For Approval - Performance Document page

At this point, the following buttons may appear on the Overall Summary Section.

Step	Description
Click Calculate Ratings	This button is available in the Summary Group box and the Overall Summary Section. To calculate all of the items and section ratings, as well as the overall rating that appears on the performance document. Ratings are not calculated for items, sections, or summaries that are overridden. The Submit For Approval - Performance Document page (Figure 120) is displayed. Click to calculate ratings.
Click Cancel Evaluation	To move the current evaluation from a status of In Progress to a status of Cancelled . If the manager cancels the evaluation, then all the evaluations, employees, and peers, that might have already been sent to the Manager Profiles business process will be deleted. If the employee cancels the evaluation, then only their evaluation is deleted.
Click Save	This button displays on an evaluation when the evaluation status is In Progress .

Step	Description
Click Available For Review	To submit the document for review by the employee, according to the review and approval rules. This button is available when the review process is selected in the Manager Evaluation group box on the Process tab - Template Definition page (Figure 17). This specifies that the employee review is required and that all the required information has been entered.
Click Manager Override	<p>The button appears at the following levels on the performance review page, depending on the template definition:</p> <ul style="list-style-type: none"> ■ At the item level within a section, to override the system calculated average of the individual subitem ratings. ■ At the section summary level to override the system-calculated average of the individual subitem ratings. ■ At the overall performance review summary level, to override the system calculated average of individual section ratings. <p>An override that is entered remains in place until it is reviewed. To have the system recalculate the rating, remove the override.</p>

- Complete the remaining field on the page at the end of the performance document as follows:

Comments

Enter a free-form text to describe an employee's performance relative to the corresponding item or section. The comments section always has access to the spell checker and optionally has access to writing tools. This field can appear at the item level or the section summary level. This field displays if the Comments check box is selected in the Section tab - Section Roles region - Structure tab - Template Definition page (**Figure 20**) or Item Tab - Section Roles region - Structure tab - Template Definition page (**Figure 21**).

Step	Description
Click Review Held	To record the fact that a review of the evaluation was held. This button displays if the review process specifies that an employee review is required on the employee has reviewed the manager's fictionalized evaluation.
Click Reopen	To change the status to In Progress . This button appears for manager and administrators when the evaluation is in the Complete status.

At this point, the following options are available:

Step	Description
Click Edit Details (icon)	<p>Click to edit detail information for the item.</p> <p>The Edit Details icon displays on the evaluation if the Update check box was selected from the role in the Item tab - Section Roles region - Structure tab - Template Definition page (Figure 21) for the section.</p>
Click Delete (icon)	<p>To delete the content item.</p> <p>Delete is available if the Mandatory check box is not select on the Content tab - Template Definition page (Figure 23).</p>

Managing Reviews And Approvals

The review and approval notifications on the General Settings page of ePerformance must be enabled for this process to work correctly. The Alternate Role User feature is not available in ePerformance.

This section provides an overview of the review and approval processes and discusses the following:

[Review And Approval Options](#)

[Document Statuses During Review And Approval](#)

[Conduct Reviews](#)

[Approve Documents](#)

[Resolve Approval Transactions In Error](#)

[Delegate Approvals](#)

Review And Approval Options

When the document template is set up, a review and approval process option is selected and designate the roles that need to approve the document. The approval process controls when documents require approval and whether or not an employee review is required.

The review and approval processes are designed to:

- Notify employees and managers of status changes when a review is required.
- Automatically route documents from one designated approver to another in the approval chain, and notify each approver by email when it is his/her turn to approve a document.
- Manage workflow; that is, the order in which the review and approval steps are performed.

The table below describes the review and approval process options:

Review and Approval Options	Description
Approval Before EE Review Held	The document is approved before the manager discusses it with the employee.
Approval After EE Review Held	The approval process is initiated after the manager has reviewed the document with the employee and the employee or the manager acknowledges the document.
Approval, No EE Review Held	The manager does not need to review the document with the employee, but approval is required.
No Approval, EE Review Held	The manager must review the document with the employee, but the document does not need approval.
No Approval, No EE Review Held	The manager does not review the document with the employee, and the document does not need approval.

The persons that must approve a document are determined by the approval rules set option that is selected when the document template definition is created. Documents can be approved by the following roles:

- The manager's manager and the ePerformance human resources (HR) administrator.
- The ePerformance HR administrator only.

Employee reviews and management approvals are not required in all cases. If they are required, the manager's evaluation is the one that is reviewed and approved, and the status of this document reflects the review and approval status.

Document Statuses During Review And Approval

Employee reviews and management approvals are not required in all cases. If they are required, the manager's evaluation is the one that is reviewed and approved, and the status of the document reflects the review and approval status.

The manager's evaluation is the final document in the performance process and becomes the document used to communicate the employee's performance. A manager can consolidate other evaluator comments and ratings into the final document using writing tools and average ratings. In addition, the manager document is the one that other functionality that could be offered in **EmpowHR** (ex: Salary Planning and Competency Management) for official purposes. Therefore, it is the document that goes through the approval process.

Status codes provide a way of identifying the stages that a document moves through during the review and approval process cycle. Status codes also control when users can view or edit document data, what actions they can perform, and what page controls are available.

The statuses through which consolidated documents must pass and the sequence of these statuses are determined by the approval process that is defined on the template. The statuses and the definitions are as follows:

Status	Description
In Progress	This is the status of an evaluation when it is first created. While the status is in In Progress , the employee and manager can modify all section of their respective evaluations that the template definition permits. The evaluations stay in this status until the manager finishes the document and clicks one of the buttons, Available For Review , Complete , or Submit For Approval . The exact buttons that appear depend on the setup and approval process that is required.
Available For Review	A manager can mark an evaluation as Available For Review only when the current status of the evaluation is In Progress and one of the following two conditions are met: <ul style="list-style-type: none"> ■ The review process is either Approval Required After Review Held or No Approval - Review Held. ■ The review process is Approval Required Before Review Held and the approval status is set to Approve. To change the status of an evaluation to Available For Review , the manager must click the Available For Review button. This enables the employee to view the consolidated document and add comments to the Employee Comments section. While the document is in the Available For Review status, the manager can only edit the Managers Comments section.
Review Held	This status indicates that the manager has discussed the consolidated document with the employee. While a document has the status of Review Held , the employee and the manager have read-only access to the document, except to enter or edit the Manager Comments or Employee Comments sections of a document, if these sections exist.

Status	Description
Acknowledged	This status indicates that the employee or the manager has acknowledged the document. When this status is in effect, the Employee Comments section both managers and employees have read-only access to the document. When a document is in this status, only the HR Administrator can change the status back to In Progress .
Complete	<p>This status indicates that the evaluation process is finished. No further changes to the document are permitted. With this status, employees and managers have read only access to the document and are unable to edit or modify the content. The manager, however, can click Rework on an employee or other participant evaluations to return the document to the employee for revision. When the manager returns a document, the system changes the document back to In Progress and makes the Complete button available again.</p> <p>The employee clicks the Complete button to change the status of the document back from In Progress to Complete. This button becomes available when the document is first created or sent back for revision.</p> <p>Note: Only the manager has the ability to send the document back for revision when the status of the consolidated document is In Progress.</p>
Cancelled	<p>This status indicates that the document and all its associated evaluations is cancelled. Manager can cancel documents on the Manager Evaluation page until the time that the document status is Acknowledged or Complete. HR administrators can cancel documents at any time using their own Cancel Document page.</p> <p>Note: The Available For Review, Review Held, and Acknowledged status never apply when the approval process option is set to No Approval - No Review Held or Approval No Review Held. In these cases, employees can only view the manager's document when the status is Complete.</p>

Review process options, document statuses, and approval status values control the following:

- Page elements that are available.
- Different levels of access that manager, employees, and HR administrators have to the document.
- Actions that managers, employees, and HR administrators can perform at different points in the review and approval cycle.

Other evaluation participants are not affected by review and approval processes.

The tables below illustrate how document status and approval status work together to control user actions on the manager document for each approval process option.

Note: The buttons that are listed in these tables are hidden until they are valid for use.

Table describing the Approval Review Held process actions and statuses:

Action	Document Status	Approval Status
1. Manager completes edits to the document.	In Progress	Not Submitted
2. Manager submits the document for approval.	In Progress	Submitted
3. All persons in the approval chain approve the document.	In Progress	Approved
4. Manager marks the document as available for review.	Available For Review	Approved
5. Manager discusses documents with employee and marks the document as review held.	Review Held	Approved
6. Employee or manager acknowledges that the review occurred.	Acknowledged	Approved
7. Manager marks the review as completed.	Completed	Approved

Note: If approval is denied in step three, the document status remains **In Progress** and the approval status changes to **Denied**.

Table describing the Approval After Review Held process actions and statuses:

Action	Document Status	Approval Status
1. Manager completes edits to the document.	In Progress	Not Submitted
2. Manager clicks the Available For Review button.	Available For Review	Not Submitted
3. Manager discusses document with employee and clicks the Review Held button.	Review Held	Not Submitted
4. Employee or manager clicks the Acknowledge button to acknowledge the document.	Acknowledged	Not Submitted
5. Manager clicks the Submit For Approval button.	Acknowledged	Submitted
6. All persons in the approval chain approve the document.	Acknowledged	Approved
7. Manager clicks the Complete button to complete the document.	Complete	Approved

Note: If approval is denied in step six, the document status changes to **In Progress** and the approval status changes to **Denied**.

Table describing the Approval No Review Held process actions and statuses:

Action	Document Status	Approval Status
1. Manager complete edits to the document.	In Progress	Open
2. Manager click the Submit For Approval button to initiate the approval process	In Progress	Submitted
3. All persons in the approval chain approve the document.	In Progress	Approved
4. Manager clicks the Complete button to complete the document.	Complete	Approved

Note: If approval is denied in step three, the document status changes to **In Progress** and the approval status changes to **Denied**.

Table describing the No Approval No Review Held process actions and statuses:

Action	Document Status	Approval Status
1. Manager complete edits to the document.	In Progress	Approval Not Required
2. Manager clicks the Complete button to complete the document.	Complete	Approval Not Required

Table describing the No Approval Review Held process actions and statuses:

Action	Document Status	Approval
1. Manager completes edits to the document.	In Progress	Approval Not Required
2. Manager clicks the Available For Review button.	Available For Review	Approval Not Required
3. Manager discusses review with employee and clicks the Review Held button.	Review Held	Approval Not Required
4. Employee or manager clicks the Acknowledge button to acknowledge the document.	Acknowledged	Approval Not Required
5. Manager clicks the Complete to complete the document.	Complete	Approval Not Required

Conduct Reviews

This section shows the navigation to conduct reviews.

1. Select the **Manager Self Service** menu.
2. Select the **Performance Management** menu group.
3. Select the **Performance Documents** menu item.

4. Select the **Current Documents** component.
5. Click a document link to open the Document Details page.
6. Click **Available For Review** on the Manager Evaluation - Performance Document page (**Figure 121**).

Approve Documents

This section discusses how to approve documents.

To access the Select Transaction to Approve page:

1. Select the **Manager Self Service** menu.
2. Select the **Performance Management** menu item.
3. Select the **Approve Documents** component. The Select Transaction To Approve page (**Figure 123**) is displayed. This page allows the viewing of the documents that need to be approved. It is identical to the View Approval Status Summary page except the Select Transaction To Approve page lists only document that the managers has not yet approved, while the View Approval Status Summary page lists all document where the manager is an approver or an originator.

Select Transaction to Approve

The hyperlinks below indicate employees which require your participation in an approval process. Click on a hyperlink to see details about what needs to be approved for each employee

5. Complete the fields as follows:

EmplID	This field is populated with the employee ID that the rating is for.
Doc Type	This field is populated with the type of document that is to be approved.
Author	This field is populated with name of the role that is approve the document.
Period Begin Date	This field is populated with the beginning date of the performance period.
Period End Date	This field is populated with the ending date of the performance period.
Rating	This field is populated with the rating of the employee.
Name	This field is the name of the the author.
Role Name	This field is the role name of the author.
Process Action	This field is the process action status.
Process Action Date	This field is the process action status date.
Evaluation Approval Chain	This group box displays the approvers in the approval process and their status. Click the name link to open a new browser window containing detailed information about the approver.
Comment	This text box is used to explain the reason for approving the document, or denying approval.

6. Click **Approve** to approve the transaction. The Save Confirmation - Approve Transaction page (**Figure 125**) is displayed.

OR

Click **Deny** to deny the transaction. The Save Confirmation - Approve Transaction page (**Figure 125**) is displayed.

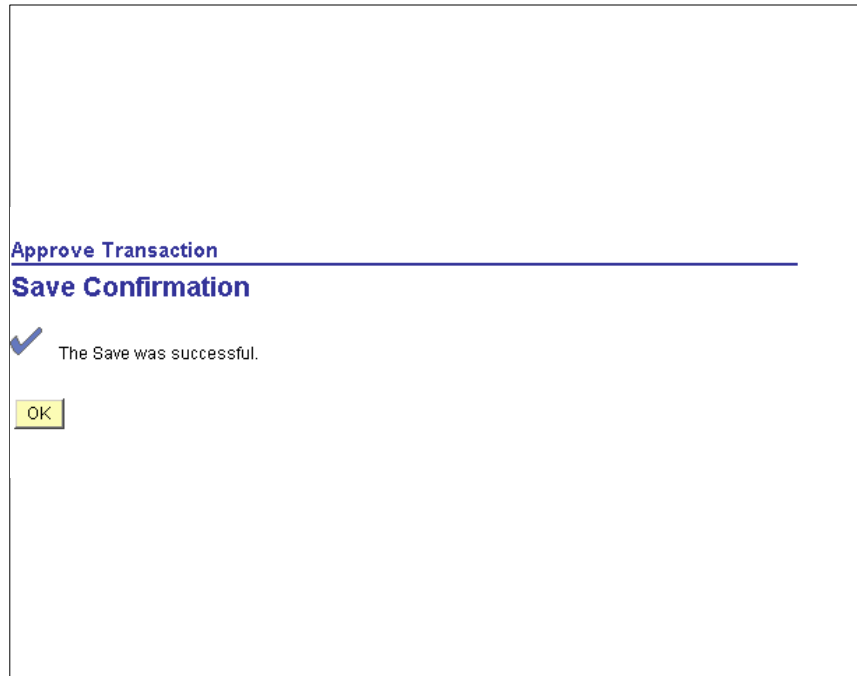

Figure 125. Save Confirmation - Approve Transaction page

7. Click **OK**. The Select Transaction To Approve page (**Figure 123**) is displayed.
8. At this point, the following options are available:

Step	Description
Click the Performance Document Details link	To display the Manager Evaluation page in the display-only mode. The page contains the consolidated evaluations and comments from all participants.
Click the Approval Summary link	To view the summary of the approval process.

Resolve Approval Transaction In Error

If an error occurs and the system is not able to route the transaction to its intended approver, the system automatically routes the transaction to the administrator, as defined on the approval process definition. The administrator can then review the transaction using the Monitor Approvals component to approve, deny, or reassign the transaction to the appropriate approver.

Delegate Approvals

Approvers can delegate the approval of a performance or development document to another peer or subordinate.

To delegate the approval transaction:

1. An administrator must activate information on the Configure Delete Transaction page.
2. The manager must assign a proxy using the Manage Delegation page.

Administrative Tasks

Certain administrative tasks can be performed outside of the evaluation cycle. Typically, administrators perform these tasks for documents that belong to one or more groups of employees that do not report to them, while managers work only with documents for employees or groups that report directly to them.

This section contains the following topic:

[Managing Administrative Tasks](#)

Managing Administrative Tasks

The task is a manager function and is only available from the Manager Self Service menu.

This section discusses how to manage administrative tasks and includes the following topics:

[Transferring Documents](#)

[Resetting Document Status](#)

[Cancelling Documents](#)

[Deleting Documents](#)

[Preliminary Ratings](#)

[Viewing Documents](#)

Transferring Documents

A document might be transferred from one manager to another if an employee is reassigned or if a reorganization occurs. Administrators can transfer any document that is in any status. Managers can transfer only documents that they currently own with a status of **In Progress**, **Available For Review**, **Review Held**, or **Acknowledged**.

When a document is transferred, the system automatically notifies the new manager that is responsible for completing the evaluation process that is in progress for that employee.

To transfer a document:

1. Select the **Manager Self Service** menu.

OR

Select the **Workforce Development** menu.

2. Select the **Performance Management** menu group.

3. Select the **Performance Documents** menu item.

OR

Select the **Development Documents** menu item.

4. Select the **Administrative Tasks** menu item.

5. Select the **Transfer Document** component. The Transfer Document page (**Figure 126**) is displayed. This page allows the user to search, select, and transfer any document with a status of **In Progress** regardless of the manager.

Transfer Document

To transfer a performance document, select the checkbox for the Employee and click the Continue push button. Only current documents can be transferred.

13. Click **OK**. The document has been transferred to the selected manager.

Resetting Document Status

The status of individual evaluations that are part of a documents changes when employees and managers perform tasks such as opening and completing the evaluation or managers mark an evaluation as **Available For Review**, **Review Held**, or **Acknowledged**. The manager can also change the status of an employee evaluation by clicking the **Reopen** button on the Employee Evaluation page. This changes the status of the employee evaluation back to **In Progress**. The **Reopen** button is available to the manager and ePerformance Administrator (ePerformance Admin) for evaluations when they are not the owner (the manager can't reopen their own evaluations) and the evaluation status is **Complete** or **Cancelled** and the overall document status is **In Progress**. Once the manager moves their document status past **In Progress**, they can not reopen the employee evaluation.

However, additional situations might occur where managers or ePerformance administrators need to change the statuses of documents as a whole. Document statuses are changed using pages that are found on the **Administrative Tasks** menu. Document statuses can only be changed to **In Progress**.

Managers can change document to **In Progress** from any of the following statuses:

- **Available For Review**
- **Review Held**
- **Acknowledged**

Managers can change document status to **In Progress** from any of the above statuses plus:

- **Cancelled**
- **Complete**

If a document is changes from **Cancelled** or **Complete** to **In Progress** status, the document is removed from all approval queues and becomes inaccessible to the employee. If the status is changed from **Complete** to **In Progress**, the following steps on the Document Details page also change to **In Progress**: Nominate Participants; Track Nominations; and Review Participant Evaluations.

Any competency ratings that were pushed from the completed evaluation to competency management are rolled back. Manager must then move the document back through the entire sequence of statuses until they can once again mark it as **Complete**.

To reset the document status:

1. Select the **Manager Self Service** menu.

OR

Select the **Workforce Development** menu.

2. Select the **Performance Management** menu group.

3. Select the **Performance Documents** menu item.

OR

Select the **Development Documents** menu item.

4. Select the **Administrative Tasks** menu item.

5. Select the **Reset Document Status** component. The Reset Document Status page (**Figure 129**) is displayed. The manager's view of this page includes all documents in the **Available For Review**, **Review Held**, or **Acknowledged** status appear in the list.

Figure 129. Reset Document Status page

6. The following fields are located on the page. If no employees report to the manager, the message will display on the page.

OR

Click **Cancel** to return to the previous page.

7. Select the checkbox for the Employee to change the document status.

OR

Click the **Select All** link to select all the employees on the list. Click the **Deselect All** link to deselect all the employees on the list.

8. Click **Continue**.

Cancelling Documents

ePerformance enables managers and ePerformance administrators to cancel a document. Managers can only cancel documents with a status of **In Progress**. ePerformance administrators can cancel any document that is not already cancelled.

After the document is cancelled, it becomes inactive. Canceling a document does not remove it from the system - it only marks it as cancelled and the document appears in the Historical Documents page instead of Current Documents.

If the system is to update Manage Profiles, the system deletes all document that have been completed and updated to the Manager Profiles business process.

To cancel documents:

1. Select the **Manager Self Service** menu.

OR

Select the **Workforce Development** menu.

2. Select the **Performance Management** menu group.

3. Select the **Performance Documents** menu item.

OR

Select the **Development Documents** menu item.

4. Select the **Administrative Tasks** menu item.

5. Select the **Cancel Document** component. The Cancel Document page (**Figure 130**) is displayed. Manager's use this search box to search for documents they own and where the status is **In Progress**. ePerformance administrators use this group box to search for non-cancelled documents, regardless of the manager.

Cancel Document

To cancel a performance document, select the checkbox for the Employee and click the Continue push button. Only "In Progress" documents can be cancelled.

Employee	Document Type	Begin Date	End Date	Job Title	Status

Preliminary Ratings

Managers can enter preliminary ratings for employees and update these ratings at any time that a document's status is **In Progress**. Preliminary ratings use the rating model that is defined for the Overall Summary section and are used to generate the View Ratings Summary report used to analyze whether ratings are distributed in the expected manner. Employees cannot view preliminary ratings.

To enter a preliminary rating:

1. Select the **Manager Self Service** menu.

OR

Select the **Workforce Development** menu.

2. Select the **Performance Management** menu group.

3. Select the **Performance Documents** menu item.

OR

Select the **Development Documents** menu item.

Reports

There are reports that ePerformance provides to assist human resources (HR) administrators and managers with the tools to monitor documents.

This section provides an overview of reports in ePerformance and discusses how to generate reports. The following is a list of reports discussed:

[Printable Performance Appraisal/Development Plan](#)

[Graphical Rating Report](#)

[Executive Summary](#)

Printable Performance Appraisal/Development Plan

A Performance Appraisal/Development Plan can be printed during the process or when the process is complete.

Note: The pop-up blocker must be turned off to print a document. If the document does not display, depress the **ALT** and **Ctrl** at the same time while clicking the print icon on the document. Continue to hold the **Alt** and **Ctrl** until the document appears.

To print a document:

1. Select a Document Type from the Current/History Performance Documents/Development Documents for the applicable employee.
2. Click the **printer icon**. The printed document (**Figure 141**) is displayed. Below is a sample of a printed document.

PART 1: EMPLOYEE INFORMATION		
Employee Name: Catherine Hunt-Vesler	Employee ID: 017812	
Position Title, Series, Grade: <small>HUMAN RESOURCES SPEC (LADOP REK0214) 13</small>	Service/Support Unit: <small>OFFICE OF WORK-FORCE MANAGEMENT</small>	Supervisor Name: <small>Charles Caruso</small>
PART 2: APPRAISAL/REVIEW TYPE		
<input checked="" type="checkbox"/> Performance Appraisal (completed for full performance appraisal period)

<input type="checkbox"/> Initial Progress Review (completed for non-supervisory/non-managerial, GS-15 and below new hires after first six months of performance per LCR 2010-11 and using FGSRM 108 Six Month Qualifying Period Performance and Conduct Evaluation)		
Rating Period: <small>From: 2010.06.11 Through: 2009.06.17</small>	Last Written Progress Review Date: Last Written Performance Appraisal Date:	
PART 3: OVERALL RATING		
Indicate the overall adjectival rating from Part 5:		
Overall Rating Scale: (Mark One)		
<input type="checkbox"/> Outstanding <input checked="" type="checkbox"/> Commendable <input type="checkbox"/> Successful <input type="checkbox"/> Minimally Successful <input type="checkbox"/> Unsatisfactory		
<i>*Outstanding rating must be reviewed and/or approved by the Service/Support Unit Head. *HUMAN Resources Relations (202-207-2366) must review all Minimally Successful and Unsatisfactory ratings prior to next level review.</i>		
<div style="text-align: center;">Performance Rating Scale</div>		
Each major area of responsibility (MAR) should be evaluated and ratings must be supported by a narrative justification. Distinct levels of performance are generally defined as follows:		
Outstanding: A level of exceptional, high-quality performance. The individual has performed so well that organizational goals were achieved that would not otherwise have been attained. The employee's mastery of professional/technical skills and thorough understanding of how his/her performance contributes to progress toward achieving the mission and goals of the Service/Support Units (SSUs) objectives, led to enhanced organizational performance. An Outstanding rating may be assigned only when all aspects of performance not only substantially exceed Successful requirements, but are exceptional and deserve the highest level of special recognition. The employee is eligible to receive high-performance acknowledgment and awards.		
Commendable: A level of high performance. The individual has exceeded Successful level requirements and expectations in MAR and shown sustained support for achieving key work unit (SWU) and Library goals. Many aspects of his/her work were carried out at an Outstanding level of performance. The employee's performance and initiative are worthy of special notice.		
Successful: A level of good, sound performance. The employee completed all assigned MAR activities and met all requirements and expectations. He/She contributed positively to organizational goals and effectively applied professional/technical skills and organizational knowledge to get the job done. A Successful rating is assigned when performance falls within a band of performance ranging from just below Commendable to just above Minimally Successful. Performance at the top half of this level indicates that the		

Library of Congress
Non-bargaining, Non-supervisory/Non-managerial, GS-15 and Below
Managers/Supervisors, GS-15 and Below

PERFORMANCE APPRAISAL FORM

employee is making consistent valuable contributions toward achieving S/SU and Library goals. Performance at the bottom half of this level indicates that the employee has not demonstrated required skills and results in at MAR, but has responded positively to feedback and made observable efforts to improve. The employee is working at an acceptable level of competence and is eligible for a within-grade increase.

Minimally Successful: A level of performance that is minimally acceptable. It is not however at an acceptable level of performance for the purposes of granting a within-grade increase or conversion to permanent status. Performance shows significant deficiencies that require correction. The employee's work has been marginal in one or more MAR, jeopardizing attainment of key unit goals. The employee has made some improvements, but does not always respond positively to feedback on performance.

Unsatisfactory: A level of unacceptable performance. The employee clearly and consistently fails to meet performance requirements and/or produce expected results. Work products have not met the minimum requirements of the MAR. Deficiencies such as little or no contribution to meeting organization goals, failure to meet work objectives, failure to meet customer needs, and inattention to organizational priorities and administrative requirements are examples of work characteristics and/or performance that could lead to an Unsatisfactory rating. An Overall Rating of Unsatisfactory may lead to demotion or removal from the Library.

Library of Congress
Non-bargaining, Non-supervisory/Non-managerial, GS-15 and Below
Managers/Supervisors, GS-15 and Below

PERFORMANCE APPRAISAL FORM

PART 4: NARRATIVE SUMMARY

Review a list of accomplishments* provided by the employee for each major area of responsibility listed in the Performance Plan. Write a brief conversational narrative that describes the level of performance observed throughout the appraisal period, including accomplishments, outcomes, suggestions for achieving higher rating if Successful or below. Assign a rating for each major area of responsibility.

* Recommended: Ask your staff to use the form *Writing Individual Performance Accomplishments* which is on the WPM web page under *General*.)

Major Area of Responsibility	Weight%	Rating
012561-0201-13 Continuous Improvement / Professional Develop	40	4
012561-0201-13 Continuous Improvement / Professional Develop	40	4
012561-0201-13 Program Management & Administration	20	4
012561-0201-13 Program Management & Administration	20	4
012561-0201-13 Program Development	20	4
012561-0201-13 Program Development	20	4
012561-0201-13 Special Projects / Additional Duties	20	4
012561-0201-13 Special Projects / Additional Duties	20	4

Managers/Supervisors, GS-15 and Below

PERFORMANCE APPRAISAL FORM

PART 5: OVERALL RATING CALCULATION

Calculation of Overall Summary Rating:

- If Major Areas of Responsibility (MAR) are assigned equal weights, add points and divide by the number of MAR to get the Overall Numerical Rating.
- If MAR are assigned varied weights, multiply points by the designated percent to get the weighted rating and add weighted ratings to get the Overall Numerical Rating.

* Adjectival Ratings are determined by using the rating ranges provided below.

Rating Symbol/Points: (Use assigned whole numbers only): Outstanding (O) = 5 pts.; Commendable (C) = 4 pts.; Successful (S) = 3 pts.; Minimally Successful (MS) = 2 pts.; Unsatisfactory (U) = 0 pts.

Major Area of Responsibility	Rating	Weight	Weighted Rating
012561-0201-13 Continuous Improvement / Professional Develop	4	40	1.6
012561-0201-13 Continuous Improvement / Professional Develop	4	40	1.6
012561-0201-13 Program Management & Administration	4	20	0.8
012561-0201-13 Program Management & Administration	4	20	0.8
012561-0201-13 Program Development	4	20	0.8
012561-0201-13 Program Development	4	20	0.8
012561-0201-13 Special Projects / Additional Duties	4	20	0.8
012561-0201-13 Special Projects / Additional Duties	4	20	0.8

Overall Numerical Rating = 4

Place the Overall Numerical Rating in the appropriate range below to determine the Overall Summary Rating:

Outstanding 4.70 or higher
Commendable 3.70 to 4.69
Successful 2.70 to 3.69
Minimally Successful 2.00 to 2.69
Unsatisfactory less than 2.0

Overall Adjectival Rating = Commendable

PART 6: WITHIN-GRADE INCREASE CERTIFICATION (complete for year-end performance appraisal only) <small>(Mark Any That Apply)</small> <small>Form 1725 (2007/11)</small>

I certify that, on the basis of past experience that his/her performance is likely to continue at this level. (Attach a list of outstanding accomplishments and cite examples of performance that consistently exceeds Successful and Commendable levels.)</i> <input type="checkbox"/> I Concur with Recommendation Service/Support Unit Head or Designee Signature: _____ Date: _____

Figure 141. Printed Document Sample

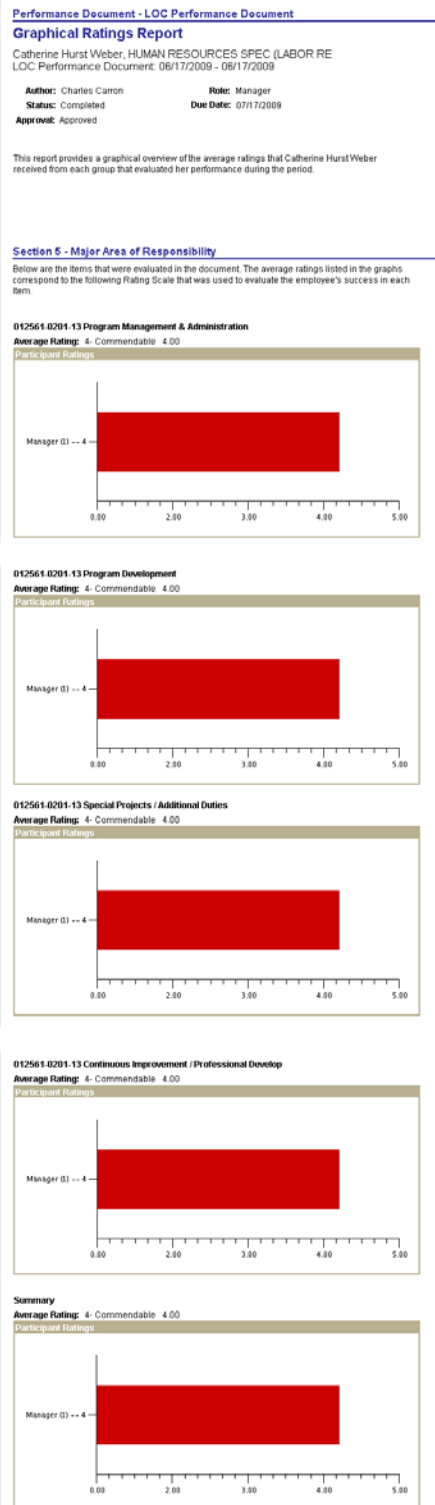

Graphical Rating Report

A graphical rating report can be run from a performance plan.

To run a graphical rating report:

1. Select a Document Type from the Current/History Performance Documents for the applicable employee.

- Click the **Graphical Rating Report** icon. The printed Graphical Ratings report (**Figure 142**) is displayed. Below is a sample of a printed report.

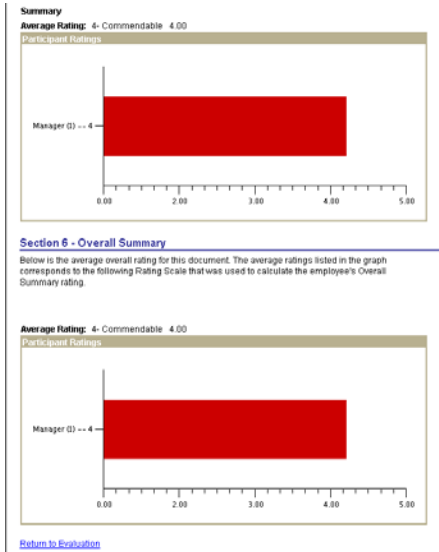

Figure 142. Graphical Ratings Report - Sample

Missing Documents

This report lists documents that were not created for a group of employees that are selected by group ID, document type, and date range. Knowing whether documents are missing is important if the HR department has defined desired rating distribution percentages, as the result of the distribution report are not reliable unless everyone in the group has a document and receives a rating during the period.

To generate missing documents report:

1. Select the **Workforce Development** menu.
2. Select the **Performance Management** menu group.
3. Select the **Reports** menu item.
4. Select the **Missing Documents** component. The Find An Existing Value tab – Missing Documents page (**Figure 143**) is displayed.

Missing Documents
Enter any information you have and click Search. Leave fields blank for a list of all values.

***Group As Of Date** Enter a group as of date or select a date from the calendar icon. The report generates a list of missing document for employees belonging to the group that is defined in the Group ID field as of the data specified.

Group ID Enter the group ID or select data by clicking the search icon. This field identifies the group of employees to include in the report.

Document Type	Enter a document type, such as quarterly, annual, or yearly or select data by clicking the search icon.
From Date	This date is the beginning date of the data for the report. Enter the from date or select a date from the calendar icon.
To Date	This date is the ending date of the data for the report. Enter the to date or select a date from the calendar icon.
Period Basis/Period Begin Date	The period basis determines which of the dates on the manager evaluation the system uses when selecting mission document to publish in the report. Select this option to look for employees who do not have a document of the specified type with a period begin date falling within the range that was entered in the From Date and To Date fields.
Period Basis/Period End Date	The period basis determines which of the dates on the manager evaluation the system uses when selecting mission document to publish in the report. Select this option to look for employees who do not have a document of the specified type with a period ending date falling within the range that was entered in the From Date and To Date fields.
Period Basis/Period Due Date	The period basis determines which of the dates on the manager evaluation the system uses when selecting mission document to publish in the report. Select this option to look for employees who do not have a document of the specified type with a due date falling within the range entered in the From Date and To Date fields.
From And To Date	The from and to dates establish a date range that the system uses in conjunction with the period basis to select document to include in the report. For example, if the from and to date range of January 1, 2009 to December 31, 2001 is defined, and the period basis in Period End Date , the report only selects document whose period end date falls between those dates.

10. Click **Save**.
11. Click **Run** to run the report.
12. Click the **Report Manager** link.

OR

Click the **Process Monitor** link.

For more information on Run, Report Manager or Process Monitor, refer to Title 1, Chapter 17, **EmpowHR**, Section 14, Reporting.

Late Documents Report

Use this report to generate a list of late documents, by document type, for a group of employees. If the current date is greater than the due date and the status of the manager evaluation is not yet complete, the document is reported as late. This report ignores documents that are cancelled.

To generate late documents report::

1. Select the **Manager Self Service** menu.
2. Select the **Performance Management** menu group.
3. Select the **Reports** menu item.
4. Select the **Late Documents Report** component. The Find An Existing Value tab – Late Documents page (**Figure 146**) is displayed.

Late Documents
Enter any information you have and click Search. Leave fields blank for a list of all values.

Inquiry

This section contains the following information:

[Manager And Employee Pages](#)

[Administrator Pages](#)

Manager And Employee Pages

Managers, employees, and human resources (HR) administrators can access different inquiry pages that enable them to view data of interest to their role.

Managers and employees can view lists of their completed documents for both performance and development evaluations and can drill down to detail documents.

Additionally, managers can view the approval status of documents for their direct reports and access documents for their indirect report in view-only mode.

Administrator Pages

The following inquiry pages are designed specifically for HR administrators:

Page	Description
Rating Distribution Summary Page	This page contains preliminary, actual, and desired rating distributions for a group of employees, defined by group ID, in the form of a bar chart. Administrators use this page to determine whether ratings are distributed in the expected manner, and to plan how to bring actual ratings in line with desired ratings.
Status Summary Page	This page contains a pie chart that summarizes the status of documents for a group of employees.
Debug/Trace Results page	This page lists the detailed calculations that are associated with a particular document. An HR administrator can use this information to debug suspected problems with rating calculations.

The table below describes the page and the navigation to view historical documents:

Page Name	Navigation	Usage
